DEATH DECREE FOR SLAYER

Alice Longworth Says

(Special To The News)

WASHINGTON, D. C., May 28.—*The Socialists have gone ahead and adopted a plank proposing an amendment to the Constitution to curb the Supreme Court. A party that knows it has no chance to get into power has one great advantage. It can afford to be frank.*

There is hardly a New Dealer, from the president down, who wouldn't dearly love to see a similar plank in the Philadelphia platform, but there isn't one of them who would dare to propose it. Now, if they should advance one, they must label themselves as somewhat belated followers of Mr. Norman Thomas.

The truth is that if the New Dealers intend to carry out their court-repudiated program they will eventually be forced to make a direct drive against the Constitution as it now stands. They are fully aware that that course is loaded with political dynamite, and show no signs of meeting the issue squarely.

They manifestly prefer to stalk the reversed document, and snipe at the Supreme Court.

Whatever they may say or do, the Socialists have beaten them to it.

ALICE LONGWORTH.

Three Officials Of Drug Concern Are Sentenced

Bass, Hammond And Guyer Are Given Terms In Prison

FIVE OTHERS IN CASE ARE PAROLED

Numerous New Castle Investors Were Victims Of Stock Sales

(International News Service)

PITTSBURGH, May 28.—Three officials of the Atlantic Drug and Chemical Corporation, an allegedly fraudulent concern set up to promote fake stock sales, today were given penitentiary terms by Federal Judge F. P. Schoonmaker before whom they pleaded guilty to 26 indictments each.

Five others indicted in the case were placed on probation after Charles F. Uhl, U. S. district attorney, agreed they were innocent victims of the ringleaders of the vast stock selling scheme which victimized many western Pennsylvanians.

President Given Three Years

Henry M. Bass, president and alleged "brains" of the company, was sentenced to three years.

David S. Hammond, secretary, was given two years.

A. S. Guyer, the sales manager and former prothonotary of Bedford county, was given one year and a day, sufficient to insure his imprisonment in a federal institution. A Leslie Brown, assistant treasurer, and Alexander I. Thompson, James Ritchie, Roy E. Smith and Harrison M. Whippo, salesmen, were all placed on probation for three years each.

Takes Responsibility

Bass, in his final plea before Judge Schoonmaker, took sole responsibility for the embezzlement.

"I am solely responsible," he told the jurist. "But, the company sold stock amounting to only $16,000, not $600,000," he added.

Pointing his finger at Attorney Alexander P. Lindsay, special counsel for the Pennsylvania securities commission at the time the company was investigated in 1930, who was in the courtroom, Bass accused Lindsay of giving erroneous information to the newspapers.

"That man misrepresented to the newspapers, giving them the figure

Congress Cites Dr. Townsend And Two Aides

Trio Must Stand Trial In District Of Columbia Court Result Of Action

(BULLETIN)
(International News Service)

WASHINGTON, May 28—In swift retaliation for their defiance of the special committee investigating old age pension organizations, the house today cited Dr. Francis E. Townsend and two of his aides for contempt.

Approving a resolution by the investigating committee, the house decided that the 70-year-old pension advocate and his lieutenants Dr. Clinton Wunder of New York, eastern regional director, and John B. Kiefer, Chicago manager, must stand trial in District of Columbia supreme court for their refusal to testify.

It was the first contempt citation voted by the house in 23 years.

The vote to approve the resolution was:

For 271; against 41.

The house action delivered the whole matter into the hands of the district court. To be brought to trial Townsend and his aides first must be indicted by a grand jury.

There was no "going on record." Rep. Monaghan demanded a roll call but the Townsendites could not muster sufficient strength to get one.

Roundup Of Alleged Members Of Hooded Organization Being Planned

(BULLETIN)
(International News Service)

WASHINGTON,, May 28.—A joint resolution calling for congressional investigation of the Black Legion and kindred terrorist organizations was introduced in the senate today by Senator Benson (FL) of Minnesota.

A special committee of four representatives and four senators would be appointed by the president of the senate and speaker of the house to investigate any or all activities of such subversive groups throughout the country.

A similar resolution was introduced in the house yesterday by Rep. Dickstein (D) of New York.

Roundup In Prospect.

Detroit, May 28.—While Uncle Sam in Washington eyed Michigan's probe of the Black Legion with strong possibility the famed G-men will answer increasing calls of help, authorities here, checking reports at least "60 or 70" policemen are cultists, revealed a list of more than 100 members and indicated a wholesale roundup of Black Legionnaires was in prospect.

Police Inspector John I. Navarre, who first uncovered the Black Legion connection with the fantastic vengeance slaying of Charles A. Poole for which 13 men have been jailed and 12 others hunted, said the list was being studied today in a conference between police and Prosecutor Duncan C. McCrea.

Democrats In New Caucus On New Tax Bill

(International News Service)

WASHINGTON, My 28.—A new caucus of Democratic members of the Senate Finance committee was called this afternoon in a final administration move to overcome the revolt against President Roosevelt's demand for a budget-balancing tax bill, raising the necessary revenue from corporations and their stockholders.

Although the committee was ready for a final vote on its $642,000,000 substitute for the presidential program, action was delayed by the Democrats. They meanwhile arranged an afternoon conference, from which Republicans were barred, in hopes of compromising the deadlock between the president and the committee.

The committee substitute would raise $560,000,000 new revenue from corporations through flat rate taxes on net income and undistributed earnings. The president demanded $620,000,000 new revenue from corporations and insisted upon a heavy sliding scale of taxes upon undistributed earnings in a desire to force distribution of corporative income into the hands of stockholders.

Driver For Cleveland Fire Chief Kidnaped; Suspects Are Taken

(International News Service)

ERIE, Pa., May 28.—Two men alleged to have kidnaped C. L. Trinkner, driver for the fire chief at Cleveland, O., for several hours, and forced him to drive them to Pennsylvania, were captured by a posse near here today without the firing of a shot.

The men, identified as John Vontivko, 24, and William Zingner, 34, both of Cleveland, were taken to the state police headquarters at Butler, where they were to be turned over to federal agents.

Police said Trinkner told them he was waiting in front of the Hotel Hollenden at 1:30 this morning for the fire chief when the two men approached. One stuck a gun in his ribs, he said, and then both got into the car and ordered him to drive to Pennsylvania.

At North Girard, police quoted Trinkner as relating, the men left the car and told him to drive on. He circled back, summoned a constable at North Girard, who in turn called the state highway patrol, police said Trinkner told them. A posse was organized and the men were taken an hour later.

Relief Problem Is Up To Board

Special Session Adjourns For Week End Without Action On June Relief

HOUSE AND SENATE AT ODDS ON FUND

By A. NORMAN GAGE
International News Service Staff Correspondent

HARRISBURG, May 28—Continuation of direct relief to 600,000 unemployed Pennsylvanians today rested apparently on the readiness of the state emergency relief board to adopt what Democratic legislators have termed "a subterfuge."

By adjourning for the week without agreeing on an appropriation for relief after midnight Sunday, the Republican-controlled senate and the Democratic-dominated house of representatives tossed an unsettled problem into the SERB'S lap. The only solution lay in the use of $845,000 of unexpected SERB appropriations to provide funds for the needy during the first few days of next week.

Up To SERB

A decision of whether the SERB could write checks during the next three days for relief payments technically due in June must be made by the SERB. Democratic members of the house described the procedure as "a subterfuge" yesterday and refused to press for a formal legal opinion on the subject.

A $2,000,000 disagreement between senate Repuiblicans and house Democrats prevented the relief agency from getting $4,931,211 for next morth before the embattled legislature quit for the week. The

Youthful Bandits Quickly Captured

Two Of Three In Waynesburg Holdup Caught In Coke Oven Hideout

(International News Service)

UNIONTOWN, Pa., May 28.—Two of the three youths who held up the cashier of the Silveus restaurant in the business district of nearby Waynesburg and fled with $40 were captured in an abandoned coke oven on the outskirts here by state police a few hours later today.

They were identified as John Obitko, 18, of Rowes Run, and Charles August, 19, of Grindstone. Their companion escaped.

State police reported the boys escaped in a black sedan, which was found near the coke oven hideout. They eluded state police blockades at Masontown and Uniontown before abandoning the machine.

Harry Koch, the cashier, said the youths forced him to open the cash register at gun point after he had attempted to "stall" them for a while in the hope that the cook might detect the holdup and call police. A gun found in the getaway car corresponded with the weapon which Koch said the two youths used. The robbery was the second in Waynesburg's business section within the last two weeks.

Find Fiorenza Guilty In Murder Of Mrs. Titterton

Verdict Returned This Morning In New York Court Trial

DEATH IS PENALTY DECREED IN VERDICT

Import Of Jury Decision Makes Strong Impression Upon Accused Man

(International News Service)

NEW YORK, May 28.—John Fiorenza, 24-year old ex-convict, was found guilty of the murder of Mrs. Nancy Evans Titterton by a jury in general sessions today.

The dapper, sleek-haired Fiorenza winced as he heard the verdict. It meant he must die in the electric chair at Sing Sing.

Only a handful of spectators were in the courtroom when the verdict was announced.

After Fiorenza was brought in

JOHN FIORENZA

from the Tombs, and Judge Charles C. Nott, Jr., had ascended the bench, Jury Foreman Stuart Campbell, delivered the jury's verdict.

"Guilty of murder in the first degree, as charged."

Fiorenza's eyes blinked and his shoulders sagged as the fateful words fell from the foreman's lips. His dark "poker face" was otherwise impassive.

He remained standing as, one by one, the jurors were polled and each of them asked if guilty was their verdict. It was, they said, one by one.

Import Of Verdict Felt

Fiorenza looked glum as the jurors were polled. Import of their verdict had sunk finally into the consciousness of the man who attacked and strangled Mrs. Titterton and threw her body into the bathtub in her apartment last April 10, Good Friday.

Dionne Quintuplets Two Years Old Today

By GRACE TROY
International News Service Staff Correspondent

CORBEIL, Ont., May 28.—Happy birthday!

The calm and peace of the quiet, little Dafoe hospital here was broken earlier than usual today as five little girls opened their big, brown eyes and gurgled and laughed at the rising sun on the horizon.

The Dionne quintuplets—Yvonne, Annette, Cecile, Emilie, Marie—greeted the second anniversary of their birth with a hearty vigor that was a joy to behold.

The five healthy, happy tots of today are a far cry from the scrawny, almost infinitesmal quintet born to Elzire Dionne on the night of May 28, 1934.

Dawn was just breaking as Marie squirmed from beneath her warm nest of soft blankets to arouse her sisters. In a moment all were wide awake and bubbling over with childish excitement.

Day's Routine

Nurses Noel and Leroux, responsive to the slightest sounds from the nursery, swished in with a ration of orange juice. Vitamins come first with these healthy youngsters . . . even on birthdays.

Then came the birthday baths, a

BEAVER COUNTY HUNT FAILS

Fugitive Is Not Captured

Officers Continue Search For Man Believed Hiding In Hills Of County

BROKE LOOSE FROM TWO POLICE OFFICERS

(International News Service)

ALLIQUIPPA, Pa., May 27.—For the third successive day, heavily armed Aliquippa and county police today scoured the densely foliaged hills and valleys between here and Monaca in search for Mike Buncich, 27-year-old gun-toting robber sought since he broke away from arresting officers here Tuesday.

Buncich wrenched loose from two local policemen who attempted to take him into custody for questioning in connection with hold-up and robbery of a barber shop Monday. The fugitive escaped in the policemen's car amid a hail of bullets, returning five shots at the law enforcers.

He is believed hiding in the hills, where a man described as Buncich has appeared at several farm houses asking for food and water.

The police car was recovered Tuesday afternoon one mile from the scene of his break for liberty.

and restore relief to a sound basis of local administration.

"We must be allowed to have unhampered efficiency in production so that industry may pay wages leading to an improved standard of living and so that lower costs to the public may provide an increased purchasing power for everyone."

Menacing Attempts Cited

Most serious problems confronting not only industry but the entire nation, Grace declared, are the "menacing attempts to exercise a political control of our economic and personal lives." Such attempts, by "continued experimentation and failure to recognize the proper functions and accomplishments" of industry, he added, are delaying sound and permanent recovery.

Business and public opinion both, Grace asserted, are united against any forces leading toward abolition of "freedom of initiative and freedom of enterprise."

Governmental regulation of business, he said, is necessary to a certain extent but "regulation has gone too far" as the result of attempts to "translate emergency measures into a permanent condition of bureaucratic denomination."

Problem Not Solved

Unemployment, the steel corporation head continued, is one of the problems used for justification of extended federal power. Despite such extention, however, the problem has not yet been solved and no one yet accurately knows "how many there are unemployed or how many are really employable."

Federal domination of relief has also proved successful, Grace claimed, since despite the fact that volume of business and employment have increased relief expenditures "have run a race to outstrip them." While business and employment from 1933-35 showed 18 per cent, improvement, he declared, relief expenditures increased 130 per cent.—over a billion dollars.

So-called "technological unemployment" is not responsible for the situation, Grace claimed, since past experience shows technical progress has created rather than destroyed jobs.

RELIEF PROBLEM IS UP TO BOARD

(Continued From Page One)

senate adjourned after reducing the appropriation, contained in an emergency resolution, from the house-approved total of $6,931,211. The house rejected the reduced amount and also adjourned, after repeatedly refusing to reconsider its rejection of the senate cut.

Throughout the most turbulent session the house has witnessed in many years, Democrats hurled charges that Republicans are responsible for the present emergency and Republicans countered with charges that the Democrats are to blame.

Arguments Made

Summarized, the rival contentions in this new crisis in the session—long battle over unemployment relief appropriations are these:

Democrats charge that the Senate adjourned before the house could act on the emergency resolution. They insist that $6,931,211 will be necessary for June. They argue that, by approving the senate-amended resolution, the house would accede to the belief that $4,931,211 is all that is necessary for June. They hold further that, if the revised resolution were adopted, the house would be in the position of establishing a precedent for an average monthly relief appropriation of less than $5,000,000 for the period ending next January 31.

Republicans contend the senate adjourned because its week's work was done and Democratic leaders had indicated that the house would approve the emergency resolution in its $4,931,211 form. They point out that more money could be provided when the $4,931,211 is exhausted. They hold that the money provided by the resolution is not appropriated for any specific period.

Again At Odds

On the question of responsibility for interrupted relief payments, the two parties are equally at odds. Democrats claim the blame falls on the Republican senate which adjourned before the house had acted finally on the resolution. Republican place the blame on the Democratic house which refused to approve the $4,931,211 resolution and, subsequently, press for additional appropriations.

While these charges and counter-charges echo through the capitol and into all parts of the state, a different responsibility rests with the SERB. Director Karl DeSchweinitz, who write a letter urging house concurrence in the senate-reduced appropriation, today continued to search for a way out of the emergency.

The $845,000 which may solve the problem was originally appropriated by the special session as part of the money made available for use during May. It has not been spent and under ordinary circumstances would lapse—or return automatically to the general fund—on May 31. It cannot legally be spent on or after June 1 unless the legislature re-appropriates it. That is why the SERB is considering the immediate, high-speed preparation of relief checks between now and midnight Sunday. Such checks, it is argued, would represent May expenditures though relief recipients would receive them in June as payments for the first week of June.

FIND FIORENZA GUILTY IN MURDER OF MRS. TITTERTON

Fiorenza's pedigree. The prisoner placed his right hand on a Bible as he answered questions put to him by the clerk of the court.

A bailiff repeated the answers which Fiorenza gave in a half whisper.

"Single. An upholsterer. Temperate."

The criminal path which led to "the bathtub murder" was rehearsed—petty larceny in Brooklyn in 1932, sentence suspended; attempted grand larceny in Brooklyn, 1933, sentenced to Elmira reformatory; petty larceny in 1934, sentence suspended; violation of parole in 1934, returned to Elmira reformatory. Subsequently released on parole. His address in Brooklyn was entered in the record.

Keeps Gaze On Floor

The pedigree taken, Fiorenza was promptly led from the courtroom to his cell in the Tombs. He walked from the room with his head bowed and his gaze fixed on the floor. He looked neither to right or left. He seemed crushed by the verdict.

Judge Nott turned to the jury and said:

"I want to compliment you gentlemen on the fact that during your long hours' deliberation you never once complained to the court that you could not agree. You kept right on the job conscientiously.

"You never need have any scruples about this verdict. It is not only justified but also necessary under the evidence. This crime was a shocking thing and you did a public service. I discharge you with the thanks of the court."

Judge Nott then dismissed court. Reporters scampered to their wires.

District Attorney William C. Dodge, victorious in the first murder case he has tried since taking office January 1, 1934, said to reporters:

"The verdict was justified."

Defense Attorney Henry Klauber, to whom the verdict was not unexpected, said:

"An appeal to the court of appeals is mandatory under the law. The law will be complied with."

THREE OFFICIALS OF DRUG CONCERN ARE SENTENCED

of $600,000 because he desired publicity in his election campaign for a judgeship," Bass charged.

Leniency Asked

Leniency was asked for all the defendants by a large number of character witnesses. Former Judge Stephen Stone, of Allegheny county, described Bass as a charitable man whose "heart is right."

Judge Schoonmaker indicated his light sentence for Tichie was because the man had already served a year and nine minths in jail on state charges as a result of manipulations of the company. The jurist indicated Ritchie had already served as much as he had intended to sentence him on the federal charges. Hammond also had served three months on state charges.

Whippo and Smith were described by Uhl as "innocent salesmen" who believed they were selling a legitimate stock.

Brown told Judge Schoonmaker he had signed a paper making him a partner in the firm at the request of Hammond, his brother-in-law, in whom he had utmost confidence.

Victims Are Mentioned

Uhl, in presenting the defendants for sentence, pointed out their victims were mostly "people who knew nothing of stock dealings such as small business men, school teachers and clergymen." He said the government had no means of determing the exact amount of the fraudulent stock sold but that it had records of transactions involving at least 500 certificates.

Brown had pleaded "no defense" and was adjudged guilty by Judge Schoonmaker. The other six had all pleaded guilty.

Charges against a ninth man, Frank Bradour, will be nolle prossed, it was indicated.

The company set up elaborate offices here with several trunk telephone lines which federal investigators said did not extend beyond the office walls. From this luxurious headquarters, it conducted its stock selling scheme. Many of the victims crowded the federal court chambers.

Numerous investors in the company were residents of New Castle, Pa.

deal of splashing, punctuated with merry laughter, brushing of 14 pearly teeth in each, little rosebud mouth, combing of fluffy, brown hair and the Dionnes were ready for breakfast. There was no change in the usual diet—half a slice of bacon, one coddled egg, one small piece of toast, gruel and milk.

After breakfast the door of the nursery opened and in stepped a visitor.

"Le docteur," Dr. Allan Roy Dafoe—the country doctor—the man who has done so much to make this record-breaking day possible.

Dr. Dafoe's kindly face was radiant and he greeted each of his beloved charges with cheery salutations and soft pats. Satisfied that everything was in order, the physician left the nursery to prepare for the birthday party and radio broadcast scheduled for later in the day.

At the Church of the Sacred Heart here, Father McNally at the request of the children's guardians, celebrated a special quintuplets mass.

Statistics On Quintuplets

Mr. and Mrs. Oliva Dionne, the parents, did not attend this special mass. Instead they journeyed to Callander with their other children and heard Father Bunyan appeal for divine aid for the quintuplets.

The two nurses greeted the returning church-goers with a set of important statistics . . . the weights and heights of the quints on their second birthday:

Marie, 21 pounds; 30½ inches.
Emilie, 23 pounds; 31 inches.
Cecile, 24 pounds; 31½ inches.
Annette, 25 pounds, 1 ounce; 31 inches.
Yvonne, 25 pounds; 31½ inches.

If the weather was suitable, the babies were to be taken out-of-doors for a spell. They will take brief naps after lunch at 12:30 and in the late afternoon the big birthday party will be held.

The highlight of the party, of course, will be the gala radio broadcast which will be handled by four big radio chains on this continent and perhaps by the British Broadcasting Company in England.

CONGRESS GETS BLACK LEGION PROBE APPEAL

(Continued From Page One)

gained force today as new rumors of floggings and a lynching reached authorities.

As the state filed a petition in circuit court here asking for a one-man grand jury probe, Prosecutor Duncan C. McCrea said he had wired an appeal to U. S. Attorney General Homer S. Cummings for assistance.

In Pontiac, Lyle Tabor, a member of the newly organized "citizens committee" there, suggested a federal grand jury be called to act as a clearing house for rumors and evidence concerning crimes charged against the cultists.

He said possible witnesses would testify before a federal agency while they refused to go before a county grand jury for fear their actions might be relayed back to the Black Legion. Tabor declared he had received reports city and county officials and prominent citizens were Black Legionnaires.

Ohio Rejects Move.

Columbus, O., May 28.—An attempt to force a statewide investigation of the Black Legion was defeated today in the Ohio senate.

The upper house rejected by a vote of 16 to 9 a resolution introduced by Sen. John R. Davis (D, Cleveland, calling for appointment of a five-member commission to investigate the black-robed secret order and frame legislation designed to drive it from the state.

some influential politicians" who could help him in his campaign to become a delegate to a county Republican convention.

After the meeting broke up, he declared, three of the 12 Black Legionnaires now held, Edgar Baldwin, Paul Edwards and Harvey Davis, offered to take him home. Instead of driving home, however, they started to take him with them on a ride along a lonely road, he claimed.

"I noticed two cars following us," he continued. "Then we stopped. The men told me to wait in the car and they'd be back in a few minutes. They went off somewhere and left me alone. I didn't hear any noise because I was in a closed car."

It was then, according to police, that Poole was shot down.

"After a few minutes, the men came rushing back," Johnson resumed. "We drove back to town in a hurry and nobody said anything. When we got to my house, Baldwin said he was so sorry we were so late getting home.

"That's all I know about the Black Legion. The name was never mentioned to me, and I didn't see any robes. I'm pretty sure I can prove I had nothing to do with the organization or murder of Poole."

Johnson said he formerly was a member of the Ku Klux Klan in Altoona but dropped from the organization later.

CROSSES DESERT IN 6 DAYS; ONCE TOOK TWO YEARS

(International News Service)

PARIS—Jean D'Esme, a Paris newspaper writer, has just covered in 6 days 15 hours a Sahara desert trip that took the first explorers two years.

The journey was from Algiers to Fort Lamy, south of Lake Tchad.

Traveling by car, M. D'Esme followed the old caravan route via Laghouat, El Golea, nd in Salah to the Hoggar. South of Tamanrasset the track is much less well marked, but he reached the two administrative outposts of Agades and Tessaoua without mishap, and after that it was relatively plain sailing through Zinder westward to Fort Lamy.

UPRIGHT SKELETONS OF SOLDIERS FOUND ON WAGON TRAIL

(International News Service)

PRATT, Kan.—Keeping a silent and solitary vigil over the old Canonnball Trail used by wagon trains 50 years ago, the skeleton of a soldier was unearthed near here recently

The skeleton was at first thought to be that of an Indian as it had been buried in an upright position as braves were interred. A crumbling metal badge about two inches in diameter together with patches of uniform cloth, however, identified the owner as a soldier.

It is believed that local tribesmen, in tribute to his bravery, accorded him the burial reserved for braves.

MEMORIAL DAY AT FIELD CLUB HOUSE

Plans are complete for a gala celebration at the New Castle Field club, Saturday, May 30, the occasion marking the annual Memorial Day festivities planned for the entertainment of members, and also, will officially launch the spring opening of the club.

Committees have completed their plans in adding a new freshness to the club, with new porch furniture and replaced other articles and fixtures throughout with new equipment, which was made possible through the generous co-operation of various club members representing industries of New Castle. The Field club is appreciative of the assistance given during this year's spring house cleaning project, which will add in no small measure, to the comfort of its guests who will gather at the club from time to time.

On May 30, Memorial Day, golf has been arranged as an all day feature at the club. The men will take part during the morning hours and in the afternoon, both men and women will participate in the tournaments. A special noon luncheon will be served in the dining room for members and in the evening from 6 until 8 o'clock, a full course dinner menu will be served. Beginning at 9:30 o'clock, a program of dancing will add further to the day's pleasures, with a popular local orchestra providing the music.

For the dinner, reservations will be accepted at the club office until 12 o'clock noon on Friday.

Each year the New Castle Field club committees plan a program which they feel will appeal to its members, and this year, it is expected that the entertainment will exceed all previous events of this nature. Indications point to a large attendance who will make the Field club their mecca.

Once Deaf--Now Helps Others To Hear

The prescription of a Vienna ear specialist has been brought to this country by Charles Foucek, a well-known Chicago druggist, who was once deaf but who cleared up his condition through this prescription. Through him thousands of other sufferers have tried this formula and secured amazing relief from head noises, ringing and buzzing in ears, earache, and are now able to hear more distinctly. This prescription called Ourine, costs only a few cents a day—your money back if not delighted.

WHAT ABOUT GARNER?

THERE seems to be little doubt in the mind of any citizen of average intelligence as to who the nominee of the Democratic party will be for president. The present occupant of the White House seems fairly satisfied with his job and will be named on the first ballot at the Philadelphia convention as a candidate for another term.

But what about the vice presidency? What about John Nance Garner, "Cactus Jack" of Uvalde county?

Thus far there has been scant mention made of the vice presidency. There has been a strange absence of talk about Garner's being renominated for the post he holds and it all leads to conjecture as to whether he will be renominated.

As the Speaker of the House of Representatives Mr. Garner was a forthright officer. He ruled the House with an iron hand. Occasionally he broke out into one of his typical Texan speeches, colorful and meaty. Since assuming the vice presidency he has become the "forgotten man".

Can it be that we are to take his candidacy for granted? Or is it possible that he is not in sympathy with the policies of his chief? Or is the letter he wrote in which he said that he couldn't always say the things he wanted to, to be construed as a distaste for the office of vice president?

He isn't the same Garner he was when he wielded the gavel over in the House. But at that he rates the nomination. But will he get it?

WHY BLAME CINDERELLA?

A highly altruistic spirit is shown by the Illinois Association of Chiropodists and Foot Specialists in asking the Chicago Board of Education to eliminate the story of Cinderella from school books. In their opinion this childhood classic has been responsible for much harm by causing a multitude of young women to force their feet into shoes too small for them. They believe there would be less foot trouble—and consequently less work for these specialists—if Cinderella were banished from the books.

But if memory serves, Cinderella didn't try to squeeze a No. 5 B foot into a No. 2 A glass slipper, against the urgent advice of a worried salesman. The glass slipper presented by the kneeling prince proved a perfect fit.

It may once have been true, as an old bachelor remarked, that a woman doesn't even care to leave footprints on the sands of time unless they are No. 3's. But athletics for women have changed all that. Feminine foot-binding both in China and America has gone out of fashion. But even if it had not, why blame the heroine of the prettiest fairy tale in literature?

THINK AND GROW STRONG

Thinking is not usually considered as an exercise for the building of physical strength. But in the opinion of Dr. Frederick Rand Rogers, physical education director at Boston University it is because they do serious thinking that "the ordinary business executive is stronger than the average day laborer, just as the professors at the School of Education show a greater physicial fitness index than their students."

There may be some arguments as to which class is the stronger, but Dr. Rogers supports his claim by the results of tests made with an instrument which registers the number of pounds pressure when it is squeezed in the hand. So we can't take issue with him on that score.

And when we consider the development of physical fitness in an analytical mood we can realize the truth of his statement that "thinking puts into action that fundamental function of the brain, the co-ordinating of muscle cells of the body."

Dr. Rogers no doubt has the correct theory, but there will be great difficulty in getting a majority of the population to put it into practice. Thinking is hard work, the kind which most persons prefer to escape.

HOBBIES' DELIGHTS AND DANGERS

Sometimes a man deliberately chooses his vocation; almost never his avocation. Who ever reasons, "I should have a hobby," and then picks out the best one to suit his abilities, his purse, and his occupation? No, hobbies are a sort of spontaneous combustion, like love affairs.

The benefits of hobbies often have been extolled. For the successful business man they provide that release of tension which the bow needs to retain its power. For the man who does not amount to much in the workaday world, they provide a compensating realization of power and importance in a different field. They may be sources of knowledge; they may even be profitable.

These arguments, often reiterated, have the smell of reasoning after the event; they hardly fit the spontaneity of hobbyism. The real reason for a hobby, and a better one considering the nature of the animals, is that it's a lot of fun.

One hesitates to intrude a serious suggestion into such wholehearted enthusiasm, but there is a side of the subject which some hobby-riders need to consider. That is the danger of enthusiasm becoming fanaticism. All of us have seen men so absorbed in a hobby that their business and family alike were neglected, and their usefulness destroyed.

Hobbies, like horses, must have reins; let us make the most of our hobbies, but let us keep in mind also the old advice, "nothing too much."

According to tabulations in the newspapers, the Supreme Court score is now 9 to 2 against the New Deal. This may lead some folks to wonder whether it isn't about time for the Brain Trust to warm up another pitcher?

The female agitators may demand equal rights for women all they please but they will never be able to grow any of those military moustaches.

"I would like to wake up some morning a hundred years from now" says Uncle Ezra, "just to see how high the national debt has got by that time."

If one-half of the world now wants to know how the other half lives all it has to do is look at the U. S. Treasury reports.

A Massachusetts woman wants a divorce because she says her husband hasn't spoken to her in 25 years—just shrugs his shoulders when she speaks to him. Maybe he hasn't had a chance to get in a word edgewise.

The Big Black Legion.

More And Better Babies.

A Worried Empire.

Concise Mr. Zioncheck.

By ARTHUR BRISBANE

THE "RITUAL" of the murderous secret society called the "Black Legion" contains some old "know-nothing" features. The candidate for admission must be willing to commit murder, to "proceed against Catholics, Jews and Negroes," he must be "native born, Protestant, white and Gentile."

THE "Black Legion," which probably will not last long, had ambitious plans. Among other things it proposed to overthrow the federal government, which is not an original idea. It was also going to set up a dictatorship with night-riding regiments to enforce discipline. Dictatorship is not a new idea, either.

Strange things are done or planned in the name of "liberty," now, as they were when Madame Roland mounted the guillotine platform.

RUSSIA WANTS bigger families, like Mussolini and others with "plans." Stalin wants plenty of new little citizens.

A thousand million rubles will be set aside by Moscow to "subsidize" large families and aid mothers. Birth control ladies and gentlemen will hear, surprised, that aid to large families will begin AFTER the seventh child. Seven are taken as a matter of course; that is just the beginning of a Russian family.

Modern Russia proposes that the mother shall not only have children, but also keep them alive. That presents an interesting population possibility; Russia might become as big in numbers as Japan and China combined.

CHANCELLOR HITLER of Germany joins in the "more and better babies" cry.

The German ideal is no longer the beautiful golden-haired Margaret, spinning her wheel. The Nazi demand women, who, "above everything else, can become the mothers of several children," and are willing to do so, according to a representative of Chancellor Hitler.

WILLIAM PHILIP SIMMS, English, is afraid the British empire may not survive, on account of "air fleet peril."

Britain is disturbed by the thought that her whole imperial line of communication, stretching 4,000 miles from the Straits of Gibraltar to the Gulf of Aden, is under Mussolini's bombing planes.

Except that her empire is the biggest, England should not worry more than other countries. With surface ships losing all importance, except in the opinions of some Americans, anybody's bombers can break up any line of communications, temporarily.

THE ENGLISH worry, perhaps, but at least they go to work. To any English automobile factor that will agree to build airplanes, England will supply money for new buildings. The British mean to have the most powerful fighting fleet in the air, as they have had it on the water's surface for some time past.

Only one kind of genius and one kind of courage exist among men. The British genius that produced a Nelson, or a Blake, who never went to sea until past fifty, to fight on the surface will produce other men to win in the air.

Fighting with the new weapons may make it necessary for nations to restrict their holdings. The English who knew how to expand will also know how to contract.

Sooner or later some nation or combination of nations will make itself strong enough to say to the rest of the world, STOP FIGHTING, and enforce it. England and America might do that; they could do it.

CONGRESSMAN ZIONCHECK, like a well-known character in the Bible, spends a good deal of time "going to and fro in the earth, and

DOG AND MIRROR

I led my dog before the glass.
Immediately he bared his jaw
And growled as though he would not pass
Unchallenged what he thought he saw.

At first I laughed to think that he
Could by himself be so deceived
And that another dog should be
So openly with hate received.

And then I thought; such growls as these
And such resentment harshly shown
Must come from ugly faults he sees,
Not knowing that they are his own.

He fears this dog will take away
The bone he wants himself to chew,
As he himself on any day
If given the chance would surely do.

Perhaps we, too, in others see
The selfishness we long have known
And never think that it may be
The grim reflection of our own.

The liquor control board of Pennsylvania reports that the sale of liquor during a month ending May 16 amounted to $1,292,885. People seem to have the money for the things they want.

Even in the more prosperous times, it was only the men who fell for the gold brick that carried their money in a suit case.

New Castle needs a fire alarm system. Just giving a bell of a weak caliber a few jerks isn't enough of an alarm. Men who have a business have a right to know where a fire is—at least the ward it is in. Why don't we have a fire alarm system that can be heard by others than the firemen in the fire house.

RAINBOW CHASERS

There are some men that seek for truth afar.
Beyond the borders of the last, dim star.
Yet truth gleams here within a blade of grass—
They catch a glimpse; and searching still, they pass.

Have you a secret fear? Right down in our hearts I think most of us have. My secret fear is that I will slip and fall and break a leg when getting out of the bathtub. What, my friend, is your secret fear? 'Fess up.

Dear Fred: Now comes a native of the West Indies from Barbadoes Island, telling us that the pajamas now sold in America originated in the "Bahamas".

My belief is that all the natives of the torrid zones always wore no other kind of pajamas than those they got at birth; tougher of course than those of commerce, and immensely more economical.

By FRANCINE MARKEL

By FRANCINE MARKEL

EVERY Garbo fan realizes the allure of this great actress' voice . . . its deep, rich tone, its unusual quality. And yet few realize that only through her own persistence, Garbo's voice attained such perfection.

In her younger days it was high-pitched; but realizing the beauty and attractiveness of deep- soft vocal tones in others, she persevered in her daily practice until she brought hers down to a lower range.

'Tis sad to contemplate the number of otherwise attractive girls who "give themselves away" whenever they open their mouths.

No matter how beautiful a girl may be, if her voice is "hard on the ears" her beauty counts for little. And what a pity when she might, with small effort, have improved or even perfected it.

People are remembered for their voices almost as much as for their features. Do you want those who have met you to say, "Oh yes, she's that girl with the squeeky, nasal voice."

Wouldn't you much prefer to have it said of you, as Shakespeare said of Cordelia in "King Lear": "Her voice was ever soft, gentle, and low—an excellent thing in a woman."

HATS AND PEOPLE

AS I STOOD on the corner waiting, I put in part of my time looking in windows...Not window shopping, you understand, but just looking and waiting more or less patiently....And in the big window of one little shop that obviously sold hats to women, I saw forty-seven hat on forty-seven pedestals. All forty seven hats were made of the same material, which I can't describe, all turned up on the right at the same angle, all were the same shade.....And those forty-seven hats were for forty-seven different women.

Of course it's not my business, selling hats to women, and I may be completely mistaken, but I asked myself as I looked: "How would those forty-seven hats appeal to a woman? Will she tell herself that she simply MUST have one of them because forty-six other women will be wearing that same hat, or will she decide that she doesn't want one because THAT hat will be so "common."

Seems to me I have seen some shops that put just ONE hat in the window, and let that ONE hat sell itself to hundreds of different women.....Some merchants use one approach, others use a different one and perhaps both are effective.

Perhaps men are different....

I've seen many a man's shop that filled the window with men's hats, all alike, and no man cared....The average man doesn't mind wearing a hat that is just like Jack's and Pete's and Frank's, but the average women seems to want her hat to be the same in style but different in detail from the other woman's.

We work on our characters in the same way....We want to be "differene" but not be different that we'll be lonely. We like the fellow with personality, but not the kind that sets him so far apart he can't speak the same language we do or understand what we are trying to do....We describe two individuals as being "as alike as two peas" but did you ever examine two peas?.... They are as different as any two human beings.

The World AND THE *Mud Puddles*

IT WORKS

Wisconsin has a state law which permits the wife of a man who drinks intoxicants to excess to post his name in saloons, drug stores and other liquor dispensaries, forbidding anyone to sell or give him liquor.

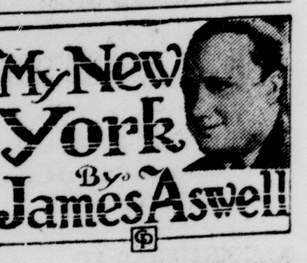
County or city officials are privileged to do the same thing with their employees. A fine of $50 or thirty days in jail is the penalty for violating the law. Damages resulting from the sale of liquor to a person under such a ban also are collectible.

This law, passed in 1933, after the repeal of prohibition, was evoked the first time a few weeks ago when a South Milwaukee woman, at her wits end to keep her husband sober, had his name posted in his drinking haunts. The result has been highly satisfactory. The husband not only has left all drink alone but has become an example of sobriety to the men of his neighborhood, who also are watching their step lest their wives turn in their names.

Words of Wisdom

Knowledge is, indeed, that which, next to virtue, truly and essentially raises one man above another.—Addison.

My New York By James Aswell



(Copyright, 1936, by Central Press Assn.)

NEW YORK, May 28.—When speakeasies bloomed and glowered in the town, conviviality was largely restricted to the evening hours, although every office had its "Two Hours for Lunch club" composed of privileged executives who returned to their desks around three in the afternoon with a faint bun on.

Now, though, there has been a strange swing toward daylight talkfests—or just plain loafing—in the "smart" (what a revolting word in this sense!) places. Bistros like "21", the Stork club, and even the top-hattish El Morocco are forced to grin and bear a plague of customers even in the morning hours.

These folk are notoriously light spenders. They just hang around, chewing pretzles and ordering such outlandish things as lemonade, plain seltzer and even milk. A few of the chatter writers pop in at this time, a few out-of-towners and now and then a party of business men who have descended from cool, quiet skyscraper offices to the hubbub of the bars to "transact business under informal auspices".

Altogether the morning rag-chewers make up a crowd. And waiters, sleepy-eyed from being up into the dawn with the evening revelers, move about in sluggish resignation. Incidentally don't let columnists fool you with their frequent protestations that they'd never go inside a night club if it weren't that business called. Most of them adore night clubs and would hang around them on one pretext or another if they had no more excuse for doing so than asking after the head-waiter's health.

This reporter is the only exception. He visits the upholstered cellars out of the loftiest sense of duty and nothing else. All right. Laugh. But at least he has never joined the mid-morning earbenders in "21".

"That gag of printing letters is too transparent for you to get away with," writes G. K. T., of Brooklyn, N. Y., "and it's time someone told you fellows that readers see through it. When you don't make up the letters yourself you just print them to fill up space and save you the trouble of doing your day's work. You ought to be ashamed.

"Telling us that you think such-and-such a letter will be of general interest is just a fish story. And speaking of fish stories, here's one I am sure will be of general interest:

"Peconic Bay, as you know, is where New Yorkers go every summer to fish. The chamber of commerce of Shelter Island, out there, has been seineing up weakfish for weeks (no pun intended) and attaching metal identifying tags to their tails.

"To the first ten fishermen this year who catch one of the weakfish with the aluminum license plates will go a new $10 bill. It's just like catching fish with $10 notes tied to their tails.

"But the way the city fathers got the idea interests me. A couple of them were in town listening to a would-be comedian in a night club do his stuff.

"'Good grief,' groaned one of the pair. 'I heard that joke about the same time I learned to shoot marbles. There ought to be a law. It's too bad they can't tag jokes with the year and place of origin. Some folks are actually laughing.'

"'No,' mused the other, 'it is a pity you can't pin a label on a joke for all to see. But wait! There's an idea there and I think I have it!'

"The next morning they were both diligently tagging fish. It just goes to show."

Today's Yesterdays, May 28, 1357—Alfonso the Proud died, leaving the Portuguese throne to his son, Pedro. The new king's first act was to have the body of his dead secret wife, Inez de Castro, golden-haired Spanish princess, exhumed, and the mummy crowned queen of Portugal in a magnificant coronation ceremony at which the nobles of the kingdom had to kneel in homage and humbly kiss the withered hand.

Thus did Pedro accomplish his revenge for the assassination of his beloved Inez by three conspirators acting in sympathy with nobles who did not wish their crown prince to have a Spanish consort.

May 28, 1754—George Washington fought his first military engagement for the British, to help present the partition of Prussia. The engagement resulted in a victory over French and Amerindians at Great Meadows (near Uniontown), Pa. This was the outbreak of the fighting in America that was an outcropping of a war in Europe in which England and Prussia were lined up against Austria, France, Sweden and Saxony, which were seeking dismemberment of the largest of the German states.

May 28, 1759—William Pitt was born near Bromly, Kent. He never went to college, and he was defeated in his first campaign for office, but he was prime minister of Great Britain at 25, and such genius for statecraft did he display that he was continued in the premiership for 20 years.

May 28, 1891—Motion picture history began. Thomas A. Franklin Girls Excel In Colorful Gym Exhibition

Entertainment hit a new high at Ben Franklin junior high school on Wednesday night, when almost 400 gymnasium girls of Miss Margaret Fischer, health education director of the school, presented an entertaining gym exhibition in the form of an artistic stage revue before an appreciative audience that was generous with applause from the first act to the end.

The large school stage formed only part of the setting for the colorful performance as the adjoining gym floor was pressed into service to accommodate the mass groups of students.

Rehearsed for weeks before the show, the performers, costumed in all colors, scored one of Franklin's greatest stage triumphs.

Particularly did the opening figure marching drill of 96 athletic girls, stepping through memorized drill movements to the shrill whistle of Miss Fischer, win the audience's favor. Then, too, the hand apparatus drill, in which was used 75 pieces of gym apparatus wrapped in gorgeous hues of crepe decorations, brought a quick response of approval. Every one of the 10 numbers met with aplause, but those seemed outstanding. An Irish dance brought forth a group dressed completely in green.

Part of Franklin's gym program, the revue given last night was the work of Miss Fischer and her assisting teachers, Miss Mary McBride the art director, and Miss Ann Shifman and Miss Margaret Shaffer, who handled all the costume work. Miss Shifman also handled the tickets.

The Franklin band played during the evening under the direction of John E. Paton.

Piano accompanists for the performers were Miss Fischer and Jean Chapman, and Edward Fortney handled the stage lights. Elaborate lighting effects were furnished by the Pennsylvania Power company.

Huge Loan Will Be Asked To Pay Soldiers' Bonus

Government To Borrow Two Billion Dollars Early Next Month

(International News Service)

WASHINGTON, May 28.—Shattering all records for peace-time financing, the treasury today launched a $2,050,000,000 borrowing program to pay the soldiers' bonus and operate the federal government until September.

Involving issuance of new bonds to raise $1,000,000,000 in cash and the refinancing of $1,050,000,000 in maturing obligations, the treasury's program is the largest since the Liberty Loans of World war days. Subscription books for the new government bond offerings will open June 15.

With the public debt standing at $31,590,000,000, the additional borrowing, together with the treasury's normal weekly securities issues of $50,000,000, will push this figure to a new high of $32,700,000,000 at the close of the fiscal year, June 30.

Officials estimated the veterans will draw slightly more than $1,500,000,000 from June 15 until September. The bonus certificates in the hands of 3,500,000 veterans have a cash value of approximately $1,980,000,000. Appropriations for running government establishments will require outlays of about $1,500,000,000 during the summer. Secretary Morgenthau has announced he intends to keep $1,000,000,000 in cash at all times to meet any possible emergency brought on through troubled world conditions. To meet this program, the treasury has on hand a balance of $2,300,000,000.

Former Military Dictator Jailed

(International News Service)

PITTSBURGH, May 28.— James Summers, 28, former Homestead policeman, and Andrew Hrosick, were found guilty by a criminal court jury here today of beating and attacking pretty 28-year-old Ann Lenhart after a night of revelry.

Defense counsel moved at once for a new trial, thus automatically staying passing of sentence. Both men face long prison terms should the conviction be upheld.

The jury reached its verdict after deliberating all night. They recommended mercy.

Summers and Hrosick denied throughout the trial they had mistreated Miss Lenhart, who testified the defendants beat her with their fists and assaulted her after she had accompanied them to several beer gardens and roadhouses.

walking up and down in it," and has become well known in a short time. Mr. Zioncheck, who has recently been in Porto Rico and the Virgin Islands, not in Washington, excuses his absence from the halls of Congress thus:

"Congress hasn't done a damned thing while I've been away, so what does it matter?"

Rude, but concise.

BRITISH SOLDIERS in checking Palestine Arabs rioting against Jewish colonists had an unusual experience; ammunition gave out and they were compelled to retire before Arabs.

Britain accuses Italy of stirring up ill feeling against England in Palestine and also in India, by radio, using the native tongues.

The Italians say Britain used her influence to stir up action against Italy in the League of Nations, getting together, although without success, fifty-one to one against Italy.

It will take a good deal of wisdom in England and in Italy to quiet the growing ill feeling.

State Police In Drive On So-Called "One-Man" Clubs —Other Raids To Follow

(International News Service)

ERIE, Pa., May 28.—Having closed the exclusive Olympic club here in a raid said by police to be the first of a series, state police liquor law enforcement officers today appeared to continue their drive against Erie's "one-man" clubs, described as unfair competitors of the city's regularly licensed liquor dispensers.

The Olympic club, officers stated, revealed complete gambling rooms, said to be the finest seen locally in almost ten years. Agents were said to have confiscated two roulette tables, a "bird-cage" outfit and numerous card and dice tables.

All the club's records were seized. It was stated papers obtained named James Graham, unknown locally, as president of the club.

The raid, enforcement agents asserted, was the first of many more to come. The drive was begun, according to agents, in order to end the competition of private clubs to "straight saloon license" holders.

Will Cross Prairie In Modern Schooner

Mr. And Mrs. Guy Ryan And Family Of Beckford Street Preparing For Trip

It's a far cry from the old "Prairie Schooner" in which our forefathers crossed the western plains to the "modern schooner" in which Mr. and Mrs. Guy Ryan and family of 913 Beckford street are now preparing to leave for the land of the setting sun.

This modern schooner, now called a trailer because it is hitched on to the back of an automobile, is parked in the back yard of the Ryan home where it is being equipped for the trip. It is probably the most elaborate vehicle in the trailer line ever seen in this city.

It has two beds, bath room, refrigerator, clothes press, table, sink, and electric light plant. There are also three ways of heating and cooking, electric, oil stove or coal.

Mr. and Mrs. Ryan, who have been residents of this city for many years, have sold their property and most of their household effects and will embark in the "schooner" for California. They will be accompanied by their daughter Caralyn Ryan and two grandchildren, Patrick and Smiles Ryan.

They expect to take plenty of time crossing the country and will spend several days at all the points of interest.

News Briefs From City Hall

Joe Fee and Lawrence Payne were arrested following a fight at the Grant street bridge last night. Patrolman Nelson, Hillers and Hanna made the arrests.

There is a hole in the street car bed in North Mill street between North and Falls street, according to police.

Chief of police Ralph Criswell has ordered police to do extra duty during the circus parade Friday, and the Memorial Day parade.

Although for centuries it has been considered an ill omen for sailors to whistle aboard ship, this custom has its origin in the fact that whistling might be mistaken for signals from the boatswain's pipe or whistle.

Townsend Probe Done Too Well

Heckling Of Witnesses And Victims By Committee Has Opposite Effect Is View

TOWNSEND HELD HONEST FANATIC

Central Press
Washington Bureau
1900 S. street

By CHARLES P. STEWART
Central Press Staff Writer

WASHINGTON, May 28. — The house of representatives' committee on investigation of the Townsend plan fell into an error which congressional investigating committees are rather prone to.

It overdid its job of heeckling its victims and produced an effect opposite to the one at which it was aiming.

One doesn't need to be a believer in the Townsend old age pension program to realize that the representatives' inquiry into it was political in its motive.

The plan was rolling up a following which alarmed many of the law-makers who did not care to subscribe to it—meaning most of them, both Democrats and Republicans. However, though they regarded it as too much of a crackpot idea with which to become identified, they were fearful that their re-election chances would be endangered if they refused to do so.

* * *

REAL PURPOSE

That was the real purpose of Chairman C. Jasper Bell's committee

The Townsendites were given a modicum of representation in its membership, but not enough to have any significant voice in its proceedings. The majority were totally unconcerned as to the proposition's merits or demerits. They already were convinced that it was unworkable. Their whole purpose was to give it plenty of unfavorable advertising.

At this task they were quite successful until they tackled Dr. Francis E. Townsend.

* * *

"GOOD" BEGINNING

First they uncovered a row between the doctor and some of his leading associates, making it appear that the plan was badly split within itself.

Then they made it look very much as if several of the doctor's helpers had been far less interested in old age pensions than in lining their own pockets.

All accounts agree that this technique greatly weakened the plan.

Contributions to it seem to have fallen off tremendously. Presumably this implied a diminution in its following.

* * *

WHERE END WAS

The committee should have begun to "call off its dog" right there.

Its real work was accomplished. It had presented Dr. Townsend in the light of a well-meaning old sucker, being exploited by a ring of racketeers, to whom he inadvertently had given a few suggestions.

Of course the doctor also had to be questioned, but it should have been done gently, diplomatically.

* * *

STEWART'S VIEW

Anyone who ever has talked with Dr. Townsend for five minutes should recognize that he is an honest fanatic.

He looks crabbed.

He is pretty "snooty" when skeptically questioned, as I heard him queried at a National Press club luncheon.

But sincerity is branded all over him.

It is manifest that, if anyone made money out of his plan, he is not the one who made it.

* * *

MADE SYMPATHY FOR HIM

But the committee foolishly tried to "pan" the doctor; to pin the stigma of racketeering on him.

It ought to have known better, politically speaking.

It created sympathy for him, not only among Townsenites, but among folk who pooh-pooh Townsendism.

The committee had Townsendism on the run for awhile.

Now, by its clumsiness, it has strengthened it.

The doctor is a martyr.

It is an outstanding example of political fat-headedness.

GIANT MUSHROOM

THE PARENT PROBLEM

By Garry C. Myers, Ph. D.

SELECTING TEACHERS

Teachers are being selected for next year. I wish that their selections might not be delayed. For the mental health of teachers they should have this matter settled now.

Let us keep these few principles in mind: Children come first. Schools are not made for teachers, but teachers for schools. The person best qualified to recommend the appointment of teachers is the school superintendent. We have best schools where the board of education looks to him for guidance in selection of teachers, and in all other strictly professional matters. Children are too precious to be toys for politicians.

Since the beginning of the depression the child often has been forgotten while the local politicians have their fore feet in the trough. And when some members of the board of education are four-footed!

Even where the school superintendent is supposed to have the say in hiring teachers, he actually may be forced to employ certain persons to teach our children in preference to others he knows to be better teachers. An occasional superintendent must do so or lose his job. Now and then one sees a superintendent who prefers the latter. We wish there were more of such.

More Emphasis on Character.

Also we wish the superintendent would put more emphasis on the personality and character qualities of teachers. First of all, we parents want teachers with fine ideals and regard for wholesome home life. Some day boards of education will give preference to those who are mothers or fathers—when we get more sense.

We parents want teachers who treat children as sacred personalities. We demand that the teacher who is known to resort habitually to ridicule and sarcasm with children be not employed. Such a teacher is a curse to childhood. Even though she might teach arithmetic or chemistry she is not fit to teach children or be in a classroom with them. If there be no other way to get rid of her, let her be retired on pension. Such would be excellent expenditure of public funds. In case you agree with me please write a letter to the editor of this paper saying so. A number of such letters published would do a world of good for children.

Let us do our utmost, as parents, to discourage the appointment of untrained, inexperienced teachers to displace the tried and true, just to get them cheaper. Our children and our neighbors' children are too precious to be put upon the auction block.

EROSION CHASM

(International News Service)

WARRENTON, Ore., May 28.—Wind erosion cut a chasm, 600-feet wide and 34 feet deep, out of an ordinary sheep trail in less than fifteen years, according to T. A. Steele, agronomist. The erosion occurred in the Clatsop Plains area, near here.

'HOT TODDY' BY BOSSY LED TO ILLICIT STILL

SAVANNAH, Ga.— When moocows in a quiet country pasture start serving "hot toddies" it's high time somebody starts investigating things.

Somebody did.

The somebody who did was a squad of county policemen.

But the investigation was to no avail.

Officers found only a broken barrel or two.

The bootleggers had evidently been tipped off on the raid.

Evidence revealed considerable bootlegging operations had been underway at the place. The cam was nestled, less than three blocks away from a church, a nice quiet location, and near a cemetery.

Everything was perfect for the moonshiners—until Bossy came along and acted unladylike. She had found the mash.

HAS MANY USES

A cooky sheet is a good investment. Not only does it do a better job of baking biscuits and cookies, but it's a good thing to set baking cups on in the oven. Or use it to hold individual molds of gelatin in the refrigerator.

Bootleggers Face Gibbet

Men Held In Shooting Of Federal Agent Admit Shooting

SPEEDY TRIAL OF PAIR IS PLANNED

(International News Service)

HAMMOND, Ind., May 28.—The shadow of the Gibbet hung over Harlan Crouch and James Jacobs, Indianapolis bootleggers, today.

Crouch, confessed slayer of John R. Foster, agent of the federal alcohol tax unit, was arraigned before United States Commissioner Schuyler C. Dwyer here last night, and ordered held without bail to the federal grand jury.

E. C. Yellowley, alcohol tax supervisor for Illinois, Indiana and Wisconsin, who directed the hunt for Crouch, declared today he will ask that a special grand jury be impaneled and that he will seek speedy trial of the two men.

Crouch was captured yesterday as he slept in an Indianapolis rooming house. Although a pistol was under his pillow he offered no resistance when George L. Winkler, a special investigator for the tax unit, and a squad of policemen kicked in the door of his room.

The bootlegger talked freely of the slaying.

Asked point-blank if he killed Foster, Crouch answered:

"Sure. We thought he was a hijacker. Jacobs handed me the rifle and I stood on the running board and fired three shots."

Two of the bullets wounded Foster in the legs, the third pierced his heart.

Foster was killed May 14, fifteen miles south of here, as he and another agent pursued Jacobs and Crouch who were transporting 200 gallons of untaxed alcohol from Chicago to Indianapolis.

FOR CHILDREN'S PARTY

At the children's party a game may be played with lollipops. The children sit in a circle. One child leaves the room. Another hides the lollipop while the others watch. Then the child outside is called in and he begins to hunt. As he gets near the lollipop the children clap loudly for "warm"; as he moves away they clap softly for "cold". Each child who finds the hidden candy within a stated time may keep it.

Thomas Edmunds, register of graves, requests that all service organizations meet at the different cemeteries throughout the county on Thursday evening, May 28th, for the purpose of decorating soldiers' graves for Memorial Day. The graves have been supplied with markers in which flags will be placed.

County Treasurer Joseph H. Hartland, reports that 6,913 dog licenses have been issued so far this year. This is a new high record for the county. Fifteen were issued day before yesterday and fourteen yesterday. The sudden spurt in the taking out of licenses this week was due to the presence of John A. Mateer of Armstrong county, dog law enforcer for the Bureau of Animal Industry. Mateer made a number of informations against parties who had failed to take out licenses.

Although the highways of Lawrence county were considerably damaged by the hard freezing last winter, the county does not appear to have been nearly so hard hit as a number of others where bridges were washed away during the spring floods. Reports of the highway department show that five hundred and twenty-eight bridges were destroyed or damaged throughout the state. While Lawrence county did not lose any bridges of consequence, considerable damage was done to embankments above the Cherry street bridge in the seventh ward. The county commissioners are having a state engineer preparing plans as to the best way of taking care of the situation at this bridge.

County commissioners' attorney, William McElwee Jr. is at work making out a list of the properties which the county has acquired by deed for taxes in former years. As soon as this list is completed the properties will be advertised for sale, with the end in view of getting them back on the tax rolls. Preparation of the list entails considerable work as boundaries of properties must be traced. In some instances it has been found that boundaries have been inadequately described. The county is willing to deed any of these properties back to the former owners if they will settle up the tax arrearages. Most of the properties are lots.

It is reported that the Mothers' Assistance Board loses considerable time explaining to prospective pensioners why their pensions have not arrived. These are persons whose applications have been approved by the local board and sent to Harrisburg. They do not seem to understand why their pensions have not come.

The board has explained on numerous occasions that no more new pensioners can be added to the list until money is made available. When this is done those whose applications have been approved will get their money speedily, but until an appropriation is made there is nothing that can be done about it by the local board.

Those who persistently inquire about their pensions are simply taking up the time of the board and do not further their own interests in any way. After an application is sent in to the state department it is entirely out of the hands of the local board, so that it can be readily seen that nothing is accomplished by taking up the time of the members.

The board is going ahead with investigations of the applications on the rolls as fast as possible, in order to have them ready when money is available. They wish to treat all applicants kindly and courteously, but they do not have the time to be continuously explaining why the pensions don't come.

They would consider it a favor if those whose applications have been passed exercise patience. Due announcement will be made as soon as any more money is available.

District Attorney Mont L. Ailey has a lot of varied duties in connection with his office, but he has nothing to do with oiling the streets. Several times lately he has been called up by persons who appear to be aggrieved because their streets have not been oiled. He tells them to call the street department.

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are one of Nature's chief ways of taking acids and wastes out of the blood. A healthy person should pass about 3 pints a day and so get rid of more than 3 pounds of waste matter.

If the 15 miles of kidney tubes and filters don't work well, waste stays in the body and may become poisonous. It may start nagging backaches, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't let it lay you up.

Ask your druggist for Doan's Pills —used successfully by millions for over 40 years. They give happy relief and will help to flush out the 15 miles of kidney tubes. Get Doan's Pills.

First Prepaid Care Case In Hospital Is About Ready To Leave

Receives About $200 Worth Of Hospital Service For 75 Cents

Enthused Over His Decision In Entering Prepaid Care Plan

Sometime within the next week, Harold Critchlow, of 407 Sixth St., is going to leave the Jameson Memorial Hospital after a three weeks siege with pneumonia. As he leaves the building he will receive an itemized bill for approximately $200 marked "paid in full." The payment cost him exactly seventy five cents which he made a short time ago when he joined a group participating in the "prepaid hospital care plan."

Mr. Critchlow is the first patient admitted to the Jameson Memorial Hospital under the new plan of prepaid care and because of this his reactions to the plan are interesting. He is convalescing rapidly, and as he talked Wednesday afternoon he smiled now and then as he thought of the seventy five cents that cancels a $200 hospital bill.

Good And Bad Luck

"There isn't much luck in having to go to a hospital" said he, "but it certainly was a piece of luck when I joined a prepaid care group. I joined it because the plan looked mighty good. After being here for two weeks I know just how good it is. It seems to me that the contentment that comes from the knowledge that your hospital bill is all taken care of must be a big help towards recovery. They tell me I had a severe case of pneumonia. I don't know but I recall being in the oxygen tent for about seven days. That alone would have meant $84. The room is a five dollar room. There is approximately $100. Then there was the X-ray and the laboratory fees. None of them mean anything to me but if it hadn't have been that I joined the prepaid care group they would have meant a lot."

"After my experience here I can't imagine any person in moderate means not joining the prepaid care plan. I had no idea of using the hospital but within two weeks of the day I joined I was up here fighting pneumonia. The treatment I have received has been splendid but I will be glad to get back out into the sunshine again."

The experience of Mr. Critchlow is going to be repeated by many people who have joined the prepaid care plan. Unfortunately there will be people who through neglect or indifference fail to join the prepaid care plan and as a result will have a hospital bill peering at them when they are discharged. The plan is a simple one in its mechanics. By joining one of the many groups or by applying at the hospital one merely signs his name and in the case of a group membership pays the first month's installment, fifty or seventy-five cents depending upon the class he wishes to join. Individual memberships at the hospital call for one year's fees. He identifies himself at the hospital business office and from then on he is protected against hospital bills, save for any elective surgery in which case he waits three months. Elective surgery means an operation which is known to be necessary at the time the member joins.

For another ten dollars per year he can protect his wife and all members of his family under twenty-one residing at home. For his individual membership he gets up to 35 days of care in the hospital including bed, meals, nursing service, X-rays, laboratory service and all necessary equipment. The only bill he has to pay is that of his physician. In the case of his family any or all of them are admitted for indefinite periods, but a rate of fifty per cent of the bed charge is made. All other service is without cost.

It is a remarkable plan. Remarkable in its simplicity and its worth whileness. As Mr. Critchlow said, "it certainly is mighty good assurance."

Billie Earl, son of Mr. and Mrs. Edward Earl, of the Ellwood road, was ten years old on May 20, and his parents gave a party in his honor. Twenty-four playmates went at 7 o'clock to make merry with Billie, playing tag, and ball and making the place ring with shouts of laughter until dark when they found indoor games were good fun to until nine when they were invited to the dining room where Mrs. Earl served the good things that children enjoy. The birthday cake had white icing with "1926, Happy Birthday Billie, 1936," written in green. Each place was marked with a green favor filled with peanuts and candy. The little guests wended their way homeward wishing Billie Earl many happy birthdays and leaving that young man looking with very wide eyes at the array of pretty gifts which were now his own. One item that was almost forgotten was Billie's cousin, Dorothy Truby, of Erie, who pleased the children by giving a tap dance.

Kiwanis Honors Lone G. A. R. Man

Only One Representative Of Civil War Veterans At Luncheon

JUDGE CHAMBERS MAKES ADDRESS

A lone Grand Army of the Republic veteran, separated from his few surviving Civil War comrades here because their health forbade them leaving their homes, received the Kiwanis club's annual Memorial Day week tribute at its luncheon meeting in the Castleton on Wednesday.

The old soldier, Edward L. Ayers, of Pulaski, sat at the day's guest of honor between President Harry L. Gormley and Frederick Taylor, Jr., a Pulaski resident who escorted him to and from his home.

Commander D. M. Clark of Mt. Jackson, the "buddy" with whom he has been sharing the service club tributes this week, was unable yesterday to leave his home. The few other G. A. R. men have not been able to attend any of the celebrations.

The Kiwanis tribute yesterday became the first of any service club memorial locally to have present but one Civil War soldier.

Judge James A. Chambers, delivering the principal oration of the day, recalled the story behind the observance of Memorial Day.

Asserting that America has been an "idealist" nation and has never entered any war for conquest, Judge Chambers, after reviewing the role this country took in its wars, declared:

"This (Memorial Day) is not a day to pay tribute to war. No! No such an observance was ever held for Caesar, Napoleon Bonaparte or for any other great man of conquest. On this day we bow not so much to the fact that our warriors have borne arms but rather to the ideals for which those arms were borne."

Judge Chambers said that "so long as there is one Grand Army of the Republic veteran living in Lawrence county, the Kiwanis club will proudly set apart one day of every year to honor them."

Dr. J. Lumen Popp presented Judge Chambers.

Musical features included vocal solos by Michael Turko and patriotic piano duets by Harry Hammond and Judy Sypher.

AROUND CITY HALL

For the purpose of preventing destruction of the natural beauty of the plots on the Public Square Mayor Charles E. McGrath and John Haven, the latter in charge of traffic, have decided that they will route the circus parade to the best advantage of the citizens here—and as a result the pageant will not pass through the Public Square. In former years all of the work of City Forester Owen Fox was ruined within a few minutes. This is not to be this year.

John F. Haven of the city police traffic bureau today advised autoists to use caution in driving Memorial day. "There will be extra heavy traffic. There also will be many persons in the downtown section. Proper speed plus care, may save grief" said Haven in making an appeal to the motoring public.

Within a short time, Mayor Charles E. McGrath will make known whether or not North Jefferson street, north of the Public Square is to be a one half hour parking limit zone. Business houses have located in that section and the mayor is giving serious consideration to the parking question here.

Mayor Charles E. McGrath will soon name the men he will select from the civil service list to act as temporary police officers. The police department quota is far below normal. With vacation period here the mayor believes that an ounce in prevention is worth pounds of cure and intends to keep the city policed properly.

Ecuador Would Sell Island Group To U. S.

(Copyright, 1936, by International News Service)

BOGOTA, Colombia, May 28.—Fearing an alleged Japanese desire to annex the Galapagos islands for an advanced naval base, the government of Ecuador is willing to sell the romantic island group to the United States provided the American government guarantees the small South American republic against annexation of any of its territory by a hostile neighbor.

This was revealed to International News Service today by a highly authoritative source who claimed Ecuadorian agents in Lima, Peru, have obtained a copy of a secret agreement between Tokyo and the Peruvian government by which, it is alleged, Japan agrees to aid Peru in an invasion in return for the strategically located islands.

Hitherto known chiefly for the adventures there of Baroness Eloise De Wagner, self-styled "empress" of a small cult, the islands possess great naval importance because of their situation in relation to the Panama canal. Located more than 600 miles off the Ecuadorian coast, the group is approximately the same distance southwest of the Panama canal and would be a distinct threat if fortified as a naval base by a foreign power.

According to International News Service's informant, the alleged secret agreement was signed last year. In it, he charged, Japan agreed to give Peru "reliable advantages" in event of a war with Ecuador and the price of withdrawal of Peruvian troops from the invaded territory would be to give the Galapagos islands to Japan.

Ecuadorians are agreed, it was said, that any invasion by Peru would be victorious because Ecuador's giant neighbor to the south possesses an army and navy ten times as strong as the smaller country.

In the past, it was explained, Ecuador was loath to part with the island group, famed to scientists as the haunt of giant lizards and tortoises, and patriots opposed strenuously any proposals to sell them. In recent months, however, this feeling has changed, the people concluding that the islands have no value to Ecuador while serving as a refuge for tax-free adventurers like the Baroness De Wagner, the Ritters and others and as the stamping ground of reptile hunting scientists.

TAKE WEIGHT OFF TIRED FEET

Lose Fat The Easy Way—Without Starvation Diets, or Back-Breaking, Bending and Rolling Exercises.

If your feet and ankles feel tired and ache all over—because you are carrying too much fat—do something about it. Try the treatment that has helped millions to reduce excess weight.

There's a reason why so many people find dieting slow and often times futile in reducing. The reason, doctors say, is often because a little gland is not working right.

All the blood in your body goes through this tiny gland sixteen times every day. If it doesn't pour into the blood stream about one and one-half drops of vital fluid every 24 hours, many people take on ugly fat. This fluid helps Nature to "burn up" excess food and fatty tissue in much the same way as a good "draft" acts in a furnace.

Now, physicians combat this condition by feeding this gland the substance it lacks — and millions of pounds of excess fat has been wiped out in this way.

Marmola Prescription Tablets are based on the same method used by doctors. So don't waste your time or money striving to reduce with starvation diets or back-breaking exercises. Start the Marmola treatment today that millions have used successfully to get rid of excess fat. The formula is in every box so you know just what you are taking. Don't wait—get a box of Marmola today from your druggist.

Tour Requests Show Increase

Requests for tour information are heavier this year than they have been in the past five years according to Bud Hanlon, of the New Castle Motor Club. Motorists seem to be planning a lot of long trips this summer from the type of requests that come in, a great many of them being for routes to California by way of Texas.

The reason for this is undoubtedly the fact that Dallas and Fort Worth, Texas, are both holding centennial expositions and the San Diego exposition is continuing through this year.

By way of St. Louis and Little Rock the mileage to Dallas is 1324 with Fort Worth about 35 miles west of Dallas. Their expositions open early in June.

"You" was formerly the second person plural, and was used with the plural verb in addressing a king. It corresponded to the kingly we. It is called a plural of courtesy, but now is in common use.

Slippery Rock Head To Give Diplomas

BUTLER, Pa., May 28.—Dr. Charles S. Miller, president of Slippery Rock State Teachers College, will present the diplomas to the 297 students of the graduating class of the Butler Senior high school at the commencement exercises in the school at 8:15 o'clock this evening.

Subject of the commencement orations, given by the seven honor students of the class will be "The Constitution."

"Possession is nine points of the law" has no legal basis. It is merely a popular saying that has developed. Nine is a popular number in folklore, but it is believed that the original number in the quotation was 11.

Substitute For Guffey Bill Is Bitterly Opposed

Charge That Substitute Bill Gives Soft Coal Industry Free Hand

(International News Service)

WASHINGTON, May 28.—In a scathing attack on the substitute for the invalidated Guffey coal law, a minority of the house ways and means committee today charged that the bill is giving the soft coal industry a free hand in fixing prices.

The minority report was signed by Reps. Treadway of Massachusetts, Bachrach of New Jersey, Knutson of Minnesota, Crowther and Reed of New York, all Republicans.

"This bill gives to the bituminous coal industry a free hand in fixing its own minimum prices," said the minority report.

"It forces recalcitrant operators to subscribe to the proposed bituminous coal code under the pressure of a 15 per cent penalty, in the guise of an excise tax, 90 per cent of which is to be refunded to code members.

Industry Favored.

"While the supervision of the price regulation is technically under the control of a bituminous coal commission, to be appointed by the president, we call attention to the fact that the commission has been enlarged from five to seven members and that two of the members are to be representatives of the producers and two of the miners, thus giving the industry a working majority on the commission.

"Moreover, while the other three members of the commission are required to have no financial interest in any branch of the coal industry, this same requirement under the existing law has not prevented the naming of two men closely identified with the coal industry as members of the present commission.

"We think it is unwholesome and not in accord with Democratic government to give special interests the monopolitsic power to fix their own minimum prices which the public will be required to pay."

No Special Reason.

"Nor is there any special reason why one group should have this privilege and another not have it.

"If coal operators are given government sanction to fix prices and enforce their decrees against dissenting operators, why should not the farmers have the same privilege?

"Why should not the textile manufacturers, the shoe manufacturers, the oil operators and others be given similar monopolistic privileges? The question, of course, answers itself. Yet, when one industry gets monopolistic privileges it will be a precedent for other industries to seek legislation along the same lines."

The minority called attention to the fact that there are no labor provisions in the bill, and asserted that the industry can fix prices without raising wages.

Mass Production Demands Highest Wages Possible

E. T. Weir Addresses Iron And Steel Institute In New York

(International News Service)

NEW YORK, May 28.—A keystone of our modern industrial system must be not only high wages, but the highest possible wages, E. T. Weir, chairman of the National Steel corporation, told the American Iron and Steel Institute today.

"Mass production cannot exist without mass consumption," he said. "Mass consumption can be maintained only if purchasing power is supported by the lowest possible prices on the one hand and the highest possible wages on the other."

Urging a sound commercial policy for steel makers, Weir asserted the best manner of reducing labor costs is to give the worker improved machinery and increase the efficiency of his working methods. He branded as fallacy the old cry of "more machines, fewer jobs".

Y.W.C.A. Board To Elect Officers At Gathering In June

Communities Band Together And Seek Flood Control Aid

(International News Service)

PITTSBURGH, May 28.—A total of 251 cities, boroughs and townships in the Ohio river valley have been organized on a semi-permanent basis to continue the fight for flood control, the Tri-County Authority reported today. In addition, 18 local committees have been organized, the authority reported.

Jewelry Robber Gets Off Light

(International News Service)

PITTSBURGH, May 28—McKeesport police today announced solution of the big $1.000 jewel robbery at the home of Mrs. Molly Temple.

But, as announced by Detectives Martin Manning and William Kreiling, Mrs. Temple's report to the police was off by $995 because the missing rings, bracelets and necklaces were worth only $5, in their opinion.

John Freeman, 47, a boarder at the Temple home, was arrested by the detectives and a magistrate gave him the choice of a $5 fine or three days in jail,

Extend Season For Y. W. Camp

Big Demand For Accommodations To Be Met By Adding Ten Days To Season

HUNDRED THIRTY-TWO RESERVATIONS MADE

It is made known by the Y. W. C. A. today that except for five places all accommodations for the summer season at Camp East Brook have been reserved and it has been decided to extend the season for an additional ten-day period (August 3 to 14.)

Not in the many years that the camp for girls has enjoyed popularity have registrations come in so rapidly as this. The camp capacity is 45. There will, according to the decision just made, be four periods this summer of ten days each, starting June 22. Registrations already made number 132.

The fourth and last period will be for girls 12 to 18 years old. It will be dropped unless a sufficient number of registrations is made before July 15. The Y. W. C. A. camp committee, of which Mrs. Robert Eckles is chairman, states that any girls who have already signed for the first, second and third periods may change to the fourth if they wish to do so.

A staff of competent counselors has been obtained for Camp East Brook this year, each member of which is a qualified teacher with experience. The staff follows:

Miss Betty Glover—Camp director.

Miss Kathryn Melvin — Nurse, dietitian and first aid.

Miss Helen Haines—Swimming director.

Miss Peggy Griffith—Recreation and assistant swimming.

Miss Margaret Hertzler—Music and eurhythmics.

Miss Louise Davies—Handcraft instructor for first camp period.

Miss Betty Mackey—Handcraft instructor for remaining periods.

Miss Leona Sankey — Nature study.

Miss Charlotte Bartlett—Dramatics.

All of these young women were at the camp last year with the exception of Miss Mackey and Miss Bartlett.

This afternoon a tea is being conducted at the Y. W. C. A. for mothers of last summer's and this summer's campers.

Charges Against Undertaker Will Be Given Hearing

Charge Undertaker With Improper Burial Of Bodies Of 11 Indigents

(International News Service)

PITTSBURGH, May 28.—Charged with burying the bodies of 11 indigents in graves shallower than those allowed by law, H. J. Henney, an undertaker, of Carnegie, today awaited a hearing before Alderman Thomas Geary under $2500 bond.

Henney was arrested on a warrant signed by John Quicley, inspector of the state health department, after residents near the Walkers Mills cemetery made complaints to the district attorney.

County Detectives Lawrence Kline and Frank Ritz said the bodies were in rough boxes from a foot to 18 inches below the surface while the state law requires graves at least six feet deep. The detectives reported the bodies were improperly clad and that two infants were found buried in packing cases used for embalming fluid. Henney received $30 from the county poor board for each burial, according to the detectives.

Troop Has Many Events Impending

Preparations Being Made By Troop For Many Activities In Near Future

ENTERTAINMENT WILL BE STAGED

Members of Troop F., 103rd Cavalry, PNG, are going to be kept extremely busy for the next month or more, a variety of activities being on schedule.

Saturday, the troop members will participate in the Memorial Day parade, and will have their regular drill session on Sunday. The Troop is also getting ready for a polo match to be staged at the centennial celebration at West Middlesex.

Next week, an entertainment will be held at the Armory to raise funds to purchase needed equipment for camp which is not provided by the state. The event was originally scheduled for this week, but because of the Memorial Day activities, the circus, and other events, it was postponed until next week.

The latter part of June, the troop will leave for the annual summer encampment at Indiantown Gap, and soon after their return, they will be moving into the new armory.

HUNT CONVICT WHO KILLED TWO MAKING ESCAPE

Believe Bloodhounds Have Fugitive Surrounded In Hills In Louisiana

(International News Service)

BATON ROUGE, La., May 28.—Prison guards and state bureau of identification officers, aided by bloodhounds, early today were reported converging on the hiding place of Wilfred Lindsly, escaped life-term convict who shot and killed prison Captain and Mrs. N. J. Himel, at Camp "G" of the Louisiana state penal farm at Angola.

L. A. Jones, warden of the state penal colony, predicted Lindsly's early capture, stating that the bloodhounds had tracked the escaped felon into the hills around Tunica, La.

This was Lindsly's second escape from Angola, where he is serving a life term for murder. He was a trusty house-boy in Captain Himel's house at the time of his latest desperate escape. He was said to be armed with the captain's rifle and pistol.

Super-Liner Queen Mary Is Racing Through Sea For New York

(International News Service)

ABOARD H. M. S. QUEEN MARY, AT SEA, May 28.—Speeded by the good wishes of King Edward VIII and his millions of subjects, the super-liner Queen Mary cut swiftly through the swelling North Atlantic today on her maiden voyage to New York.

The 80,773-ton queen of the seas may not break the trans-Atlantic record held by the Normandie this trip, but she is certain to make the crossing in fast time. Just before the vessel left Cherbourg, France, where it touched after sailing from Southampton, Captain Sir Edgar Ritten said:

"The wind is favorable. I shall take every advantage of it."

After the ship sailed, King Edward sent a radio message to Sir Edgar, which read:

"All good wishes to you for a successful maiden voyage. (Signed) Edward R. I."

In reply the captain radioed the king:

"I am greatly honored by your majesty's good wishes, which are highly treasured by myself, the officers and crew."

NEW YORK, May 28.—Traced through a gold medal taken from the victim, three youths were under arrest today as the alleged killers of Edgar L. Eckert, 55-year-old Rogers-Peet company executive.

Eckert was brutally beaten and choked to death in a washroom in the Forty-second street station of the Independent Subway, May 14.

After finding the medal, which had been presented to Eckert by his firm on the completion of 25 years' service, in a pawnshop, detectives arrested Barney Omilaniwicz, 21; Thomas West, alias Edward Vesp, 21, and Phillip Goldenberger, 26.

Irvin Urges Higher Tariff On Steel To Protect U. S. Workers

(International News Service)

NEW YORK, May 28.—Decrying constantly increasing importation of cheap European steel, W. A. Irvin, president of the United States Steel corporation, today urged that the present anti-dumping law be supplanted by a more effective substitute and that tariff rates be set high enough "to protect American industry and labor against the cheap costs and pauper labor rates of foreign countries."

Irvin, in addressing the 45th general meeting of the American Iron and Steel Institute, also warned that while improved business conditions "indicate that we are emerging from an era of almost seven years of depression," industry should be relieved "from the uncertainties of objectionable pending legislation" and assisted by government cooperation in eliminating problems barring the way to prosperity.

Quotes Tabulation.

Comparing direct exports from the United States to the leading steel producing countries, and the direct imports from them, Irvin quoted a tabulation for 1935 which showed:

The United Kingdom—Imports from U. S., 11,500 gross tons; exports to U. S., 18,000 gross tons.

France and the Saar—Imports from U. S., 1,800 gross tons; exports to U. S., 14,000 gross tons.

Germany—Imports from U. S., 400 gross tons; exports to U. S., 85,000 gross tons.

Belgium and Luxemburg—Imports from U. S., 1,500 gross tons; exports to U. S., 86,000 gross tons.

"It has recently been reported," Irvin continued, "that Japanese steel makers have joined the ranks of exporters and are directing their attention to our Pacific coast markets, offering there a wide range of common steel products."

He said that total importations of iron and steel products in 1934 were 272,369 tons, rising to 405,221 tons in 1935. In the first three months of the present year, he added, the increase over the first quarter of 1935 is 245 per cent on pig iron and 58 per cent on rolled and finished steel products.

'Great Ziegfeld' Thrills Audience

First Night Audience At Penn Theatre Acclaims Great Production

For three hours last night a first night audience sat enthralled as The Great Ziegfeld unfolded in a parade of magnificence across the screen of the Penn Theatre.

One breath taking moment followed another as the story of the beloved Flo Ziegfeld was brought to life with such stellar stars as William Powell, Myrna Loy, Louise Ranier, Frank Morgan, Reginald Owen, Virginia Bruce and others in leading roles.

For those "old timers" in the audience The Great Ziegfeld recalled those exciting times of the days of Anna Held, Fannie Brice, Will Rogers, Eddie Cantor, whose performances in the early Ziegfeld Follies were so truly portrayed in the picture. The days when these great people were struggling entertainers lifted to the heights by the genius and kindliness of that master showman, Ziegfeld.

And for those in the audience who love music, glamour, comedy, beautiful girls, the spectacle scenes of The Great Ziegfeld have never been equalled on the motion picture screen.

While thru the entire picture a theme of romance and glamour in the life of Ziegfeld holds an intense interest that, alone, would be a grand evening's entertainment.

It is easy to see how The Great Ziegfeld has charmed audiences in theatres from coast to coast. New Castle, too, loved it. Everyone in the Penn last night was under it's spell.

The Great Ziegfeld engagement at the Penn continues today and tomorrow with two performances daily at 2:30 and 8:15. All seats being reserved.

Turner Abandons Record Attempt

(International News Service)

WICHITA, Kan., May 28. — Col. Roscoe Turner, attempting to set a new air speed record between Los Angeles and Providence, R. I., landed here today at 11:09 a. m., and announced he would abandon the attempt.

The aviator, who was a half-hour behind the time of the present record, said he encountered storms out of Albuquerque and lost a "breather plug" from his motor. His plane was sprayed with oil as a result of the loss of the plug, which connects with the oil line.

Col. Turner said he would refuel and continue his flight east later.

Russian Killed By Firing Squad

MOSCOW, May 28.—Less than a week after he was sentenced to be shot for cruelty to his "subjects," I. D. Simenchuk, "dictator" of Wrangel Island, was executed. A government bulletin said today.

With Simenchuk his aide, S. P. Startseff, who was found guilty of murdering a member of a scientific expedition on the Arctic island at the tyrant's orders, was also shot.

Edward Will Be Crowned As King On Next May 12

(International News Service)

LONDON, May 28.—Edward VIII will be crowned king of Great Britain next May 12, a special edition of the London Gazette announced today.

Setting of the date confounded all the prophets, as May 27 had been predicted for the glittering ceremony that will attract hundreds of thousands to London. The coronation will be held in Westminster Abbey, with the Archbishop of Canterbury placing the jewelled crown on Edward's head.

SLEEPLESS RATS GAIN IN WISDOM

(International News Service)

ST. LOUIS—Going without sleep seems to make a rat smarter, according to tests being conducted at Washington university.

A maze of water-filled passages, ultimately leading to a warm box, was constructed and a number of rats subjected to a test to determine how quickly they could reach their objective. Two-thirds of those which had been kept without sleep for 24 hours found the correct route more quickly than others which had been permitted all the sleep they wanted, it was found.

John Frerichs and Robert Kocj, research students in psychology, are conducting the tests.

Never worry about a new government policy. If it lasts, it is a good thing; if it is silly, it is soon hooted out.

Novel Program At St. John's Church

Missionary Societies Carry Out Program Of South American Setting Last Night

The parlors of the St. John's Lutheran church presented an unusual setting last evening for a special entertainment of the missionary groups, as a large number of guests found themselves in an atmosphere of South America. A profusion of flags of all sizes, decorated the walls. The small tables were centered with flags in standards, the work of the art department of the Senior high school. This profusion of flags represented the ten republics of South America, which was the theme of the evening's entertainment.

During the year, an extensive study of the Latin American countries had been followed by the Women's Missionary Society and the Catherine Von Bora Missionary Society. The program of Wednesday evening was a culmination of their interest in this theme.

The program opened with an explanation of the study by the leader of the evening, Mrs. C. W. Herman Hess. Miss Barbara Schulz was at the piano, and throughout the evening played snatches from the national anthems of each country as its representative advanced to the stage. The members who took the parts of the various countries were elaborately gowned in costumes also portraying the Spanish setting They carried small flags of each republic.

The special musical numbers further enhanced the Spanish background, when Miss Katherine Bittner delighted the audience with a violin selection, choosing a balero. Miss Hazel Ryhal and Mrs. Ardys Gustafson offered a piano duet, "Spanish Dance." The entire audience joined in the hymn, "In Christ There Is No East Or West." The special characteristics of each country were told by Mrs. Hess as each representative appeared. Brazil was represented by Mrs. Edna Wood, the president of the Women's Missionary Society, who has travelled extensively in the Latin American countries, and to whom most of the flags belong, gave an interesting account of the customs of that country. Miss Lena Richards as Venezuela, Mrs. Ardys Gustafson as Colombia, Esther Trent as Bolivia Anna Allshouse as Peru; Ecuador was Mrs. Margaret Weiss; Paraquay, Hazel Ryhal; Uraguay, Mrs. Jennie Johnson; Argentina, Mrs. Bernice Ringer; and Chile, Betty Rick.

The Spirit of South America—Mary Elizabeth Gibson; the Spirit of North America—Mrs. Pearl Steele and the Spirit of Christianity—Mrs Ben Agnew, most effectively portrayed the peace which should prevail among the nations as embodied in the story of "The Christ of the Andes."

At the close of the program the social hour was a "coffee" and the Spanish note was carried out in every appointment.

Credit is due all who aided in making the evening an outstanding success. Committees in charge consisted of Mrs. William Mulcahy, Mrs. John Baer, Mrs. Pearl Steele, Mrs. Ardys Gustafson, Miss Lena Richards, and the leader, Mrs. C. W. Herman Hess. General assistants were Ray Gustafson, Eleanore Emery and Jack Trent. Mrs. Hess called the assembly to order and after the singing of two verses of "In Christ There Is No East Or West," the following program was given:

Prayer.

(Perhaps soft music.)

Mrs. Hess explains the general plan of the program.

Mrs. Hess reads on the stage.

Spirit of South America—Mary Elizabeth Gibson.

The countries are then summoned during the playing of soft music.

Countries are called.

Brazilian music (Brazil enters)—Mrs. Edna Wood.

Music of Venezuela (Venezuela enters)—Lena Richards.

Music of Colombia (Colombia enters)—Mrs. Ardys Gustafson.

Music of Bolivia (Bolivia enters)—Esther Trent.

Music of Peru (Peru enters)—Anna Allshouse.

Violin music.

Music of Ecuador (Ecuador enters)—Mrs. Margaret Weiss.

Music of Paraguay (Paraguay enters)—Hazel Ryhal.

Music of Uraguay (Uraguay enters)—Mrs. Jennie Johnson.

Piano duet.

Music of Argentina (Argentina enters)—Mrs. Bernice Ringer.

Music of Chile (Chile enters)—Betty Rick.

(The countries take regular positions during this first part.)

Soft music while the Spirit of North America enters—Mrs. Pearl Steel.

Soft music while the Spirit of South America enters—Mary Elizabeth Gibson.

Soft music while the Spirit of Christianity enters—Mrs. Ben Agnew.

Conversation among these three—Special story of "Christ of the Andes."

Leader closes by repeating Markham's "Christ of the Andes"—Piano plays softly the one stanza of the hymn while the countries form in the triangle. Then the people on the stage and the entire group join in singing the last two stanzas of "In Christ There Is No East Or West."

The first sign of age is the shock you feel when you get the wedding announcement of somebody who still seems a kid.

This popular preference of Electric Refrigeration is built on years of PROOF, by users. . . . They have found that an Electric Refrigerator makes plenty of crystal clear ice cubes with no neglect of general refrigeration; that the cleanliness of electric refrigeration satisfies the most fastidious housewife, that adequate refrigeration, even in the hottest weather can be maintained; and that with present low electric rates operating costs are negligible in the average home. . . . Work-Relief Fund Passage Is Pressed

Fund Of $1,425,000,000 Will Be Handled By President Roosevelt

(International News Service)

WASHINGTON, May 28.—A $1,425,000,000 work-relief fund to be handled directly by President Roosevelt through WPA, sped swiftly toward passage in the senate today.

Beside it, in the $2,368,580,000 first deficiency bill, moved a provision assuring the PWA $300,000,000 for another year's operation.

In this measure, reported for action by the appropriations committee, violent differences of Democratic senators, evinced during stormy hearings on the relief appropriation, were apparently smoothed out. The Democratic leader, Robinson of Arkansas, predicted the bill will be passed by the senate within 60 hours.

Two Obstacles

Only two obstacles loomed to plague the bill's supporters. These were scheduled amendments proposing appropriations for the already once defeated Passamaquoddy Maine Power and Florida Ship Canal projects.

The heavy Democratic majority seemed confident that the scheduled Republican drive to give states a voice in spending the relief fund could be quickly downed. Senator Vandenberg of Michigan, led the Republican bloc seeking to so amend the bill. His proposal was whipped in the appropriations committee, and with the Democrats united as they appeared to be today, there was little chance for Republican success.

Holds Up Records Asked For Probe

Philadelphia State Employment Office Head Declines To Give Probers Some Records

(International News Service)

PHILADELPHIA, May 28.—Franklin G. Connor, head of the Philadelphia State Employment office and the Federal Placement Service here, today offered the state senate committee investigating the WPA a file of his state and private industry records, but declined to submit records of federal job administration for this district.

Subpoenaed to testify at the opening inquisitoral hearing, tomorrow, Connor appeared before an executive meeting of the committee to explain that federal regulations prevented his handing over the latter records without the consent of the U. S. secretary of labor. Meanwhile, committee aides were seeking 30 other subpoenaed officials in this area including John H. Rankin, WPA director for Philadelphia, Montgomery, Delaware, Chester and Bucks counties.

First of a series of WPA probes to cover the entire state, the Philadelphia investigation will not be a "white-washing process as so many similar probes have been in the past," declared Senator G. Mason Owlett, chairman of the committee.

"This investigation will be followed through until we have shown the taxpayers of Pennsylvania how their money is being spent on WPA," Owlett asserted.

Medals were awarded to Edward Brown and Dorothy Krueger.

Two Reports On New Guffey Bill

House Ways And Means Committee Is Sharply Divided In Report On Measure

(International News Service)

WASHINGTON, May 28.—Two sharply divided reports were filed today by the majority and minority of the house ways and means committee as the Guffey-Vinson substitute for the Guffey coal law was formally reported to the house.

While the majority declared that legislation is necessary to prevent "chaos," the minority asserted that the bill turns price-fixing power over to the operators.

"The demoralization of the price structure in the industry, which prior to enactment of the 1935 law existed for many years, was in large part responsible for the low wages and poor working conditions in the industry, and for the strikes, in many instances accompanied by violence and bloodshed, which resulted therefrom," said the majority report.

"Stabilization of prices and the resulting guarantee to operators of a fair price for their coal will go a long way toward stabilization of labor conditions in the industry and toward the guarantee to the miners of satisfactory working conditions and a living wage."

Bashore Named As Delegate Today

Will Fill Vacancy Caused By Death Of Late Mtichel A. Palmer

(International News Service)

HARRISBURG, May 28—Secretary of Labor and Industry Ralph M. Bashore today was accorded the seat of the late Mitchel A. Palmer as delegate-at-large to the Democratic National convention on the basis of the vote he received as an alternate delegate in the April 28 primary election.

Bashore, who received 394,880 votes as alternate, will fill the Palmer vacancy under a ruling of the Democratic State committee providing that delegate vacancies be filled by alternates in the order of the highest number of votes received. Palmer died suddenly following his election as one of Pennsylvania's 16 delegates-at-large.

Arrest Suspect As Reported Prowler

Police late Wednesday arrested William Johnson, colored, 119½ West Washington street on suspicion of being the man who had been for a week frightening girls in the West Wallace Avenue-Canyon St. section.

He denied the charge but Police Chief Ralph Criswell said today circumstances were against him and because he was identified by several persons he is still being held and the case being investigated further.

On previous days when complaints reached the police the man sought escaped. Yesterday Detectives Horner, Showalter, Traffic director John Haven, Patrolmen Flinner, Suber, Jones and Tyrrell were dispatched to the section.

They surrounded the section and when Johnson emerged from the woods he was captured by Suber and Haven according to police.

He gave his version as to why he was in the section. However, circumstances warranted holding him, according to Criswell.

City Officials In Harrisburg

Councilman Joseph D. Alexander and City Engineer Glenn R. They were reported to have gone to Harrisburg. However, no announcement of their plans was made before they departed.

Circus Arrives Here Early Friday Morning

Tomorrow's dawn will bring the circus!

While New Castle sleeps tonight, special trains traveling over the Pennsylvania from McKeesport, will bring the great Cole Bros.-Clyde Beatty combined shows. Afternoon and night performances are scheduled for New Castle on the South Mill street grounds.

The first of the circus trains, known as the "flying squadron," is scheduled to reach here at 5 a. m. It is due to leave McKeesport at 12 o'clock tonight. Other trains will depart at intervals during the night. And about the time the milkman is making his rounds the freight yards promise to be filled with long red and yellow cars bearing oddities and curiosities from all parts of the world.

As fast as the trains arrive tomorrow morning they will be parked on convenient sidings for unloading. Some 200 odd baggage wagons, cages, dens, allegorical floats and other vehicular appurtenances will be quickly transferred to the show grounds.

Twenty-two tents covering 12 acres of ground are used to house the transient city. The largest tent is the "big top" and is almost two city blocks in length. The menagerie tent is of great size, being 80 feet longer than any similar tent used by a circus.

Stars gathered from 18 foreign countries will be in this season's big show. There are 400 performers who will be seen in more than 200 separate acts in the three rings, elevated stages, steel arena, aerial enclave and on a giant hippodrome oval.

The trained wild animal displays are headed by Clyde Beatty, acknowledged to be the greatest wild animal trainer of all time.

Among the 60 equestrians will be the Zavatta troupe of nine champions of Europe. The petite and charming Cyse O'Dell, intrepid aerialist, comes from Austria to thrill and amaze you. From Germany will be the amazing Gretonas who perform on a wire high up in the dome of the big top; other stars will be the Flying Harolds, the Aerial Illingtons and Harold Barnes, the dancing, tumbling somersaulting juvenile on the tight wire. Sixty clowns headed by Otto Griebling will furnish fun for the little folks.

There are 500 head of horses with the show this season including 200 performing equines. They will be in charge of Jack Joyce, famous horseman.

The "Serenade of Spain," an immense spectacle, will start the ball rolling in the big show and will serve as a prelude to the main performance.

The doors to the menagerie will be opened at 1 and 7 p. m. The performances beginning at 2 and 8 p. m.

West Side Pupils Present Play

Six A Class Members Give Farewell Program At School Wednesday

Two large audiences witnessed two excellent theatrical presentations, Wednesday morning and afternoon, when members of the 6A class of the West Side school cleverly staged, "Helga and the White Peacock", twice.

The elementary grade scholars selected this difficult play as a means of saying farewell to the West Side institution. The cast not only succeeded in doing this, but had the large crowd marvelling at the splendid acting in this production.

The entire cast enacted their roles cleverly. Vivian Quarles, as the Spider Woman, scored a decided hit as did Dorothy Karnes, as Helga, and Raymonda Hare, as Peacock. The three acts were introduced by Dorothy Bevan, David Speed and Evelyn Bobosky.

The stage setting was well arranged to bring about the atmospheric spookiness that prevailed in the house of the Trolls. The cast of well rehearsed actors and actresses were trained under the Misses Elsie Kivine, Rose Solomon, Elma Badger, Edna Shaffer and Jean Gilson.

Following are the students who took part in the play:

Helga—Dorothy Karnes.
Gray Goose—Arthur Chill.
Peacock—Raymonda Hare.
Olaf—Arthur Durlesser.
Spider Woman—Vivian Quarles.
Troll Mother—Jean Smith.
Youngest Troll—Frank Romeo.
Rainbow—Marjorie Crawford.
West Wind—Evelyn Hofman.
Slumber Spirit—Bonnie Burns.
Introduction to first act—Dorothy Bevan.
Introduction to second act—David Speed.
Introduction to third act—Evelyn Bobosky.

Poultrymen sometimes capture snakes that have been raiding their hens' nests by placing an artificial egg in the nest. The snake, who swallow eggs whole, can not differentiate between the real article and the artificial, with the result that when it attempts to crawl back thru the hole, the undigested artificial egg blocks its attempts to escape.

(Special To The News)

GROVE CITY, May 28.—The resignation of First Lieutenant D. C. Porter, Jr., as commanding officer of First Battalion Headquarters Co., 112th Regiment of the Pennsylvania National Guard, located here, and the promotion of First Sergeant James A. Griffith to the rank of second lieutenant, is announced today at the state armory. It marks the first change in the officer personnel of the two local companies since June, 1930. On that date, Paul Kifer was commissioned a second lieutenant, and he now succeeds Lieut. Porter in command of the First Battalion Headquarters Co.

Lieut. Griffith is assigned to Rgm. Hdq. Co., as second in command to Capt. Frank Poehlman, and replaces Lieut. Kifer. He has been "top kick" of the company since 1930, and has held a reserve commission for two years.

Radiators Take Bonnetts 6 To 5

Game At Lehigh Field Hard Fought, Stone And De-Caprio Stars

CROTONS UPSET NOBILS 4 TO 2

National Radiators declared themselves very much in the race for the first-half of the City Softball league last night at Lehigh field by besting the Bonnetts 6 to 5 in one of the best played games of the year. Frank Stone and "Gabby" DeCaprio featured the game with home run drives.

The Rads were behind three to one going into the first of the fifth, but after Stone cleaned the bases with a homer scoring two men ahead of him, it was a different game. DeCaprio pounded out a single, double and homer for the Bonnetts. Lewellyn and Dweyer gave up six hits, all of them for extra-bases with Nickie Ross having a pair of doubles, as did Cowmeadow, Sumner also had a double. Both teams played errorless ball in the field.

Twelve-Inning Game Goes To Giants, Pirates Upset Cardinals 11 To 2

YANKS DEFEAT RED SOX 9-8

By PAT ROBINSON
International News Service Sports Writer.

NEW YORK, May 28.—If you had your choice of pitchers for the deciding game of a world series, who would you like to have in there working for you?

The writer put this question up to scores of ball players in both leagues and the answer was invariably Lefty Grove of the Red Sox, Dizzy Dean of the Cardinals or Carl Hubbell of the Giants, with the choice about evenly divided.

Certainly, you couldn't go wrong with any of them. When the chips are down, one is about as hard to beat as the other, and only the other day Bill Terry said his lean left hander was about as comfortable as an old shoe.

Hubbell Comes Through.

For many years now the Giants have been calling on old Carl and his screw ball whenever they felt they had to win a game and far more often than not, the sage from the Oklahoma sagebrush has delivered the goods.

He looked so skinny and sad when he appeared at the Polo grounds nine years ago that the late John McGraw wondered if somebody had wished a scarecrow instead of a pitcher on him. He may have been a scarecrow to McGraw then, but he's been a nightmare to the hitters of the National league ever since.

He's never had, a losing year and he's not going to have one this season . When the Dodgers started Van Mungo yesterday, Bill Terry knew his Giants were in for a battle, so he called on Hub. Hub stuck a big wad of tobacco in his jaw, grabbed a glove, shuffled out to the mound and stayed right there until his buddies put over the winning run in the 12th to give him a 5 to 4 decision over Mungo, Brandt and Frankhouse, who forced in the winning run.

Reds Top Cubs.

Larry French, veteran lefthander of the Cubs, had the Reds shut out until the ninth when they scored five times to give Derringer the nod, 5 to 3.

Two reformed infielders, Bobby Reis of the Bees and Bucky Walter of the Phils, hooked up in a pitching duel with the latter getting the verdict, 5 to 2, when Manager Jimmy Wilson doubled with the bases loaded in the eighth.

Pirates Win One.

The Pirates pounded Hallahan and his successor to win 11 to 2, and bring the Cards back into a tie with the Giants for first place.

In the American league, Cleveland slammed a quartet of St. Louis pitchers for 21 hits and Hildebrand breezed in, 12 to 2.

The Tigers, gradually forging to the top, edged in over the White Sox, 3 to 2. Bridges and Lyons each allowed six hits but one bad inning cost the latter three runs and the game.

The Yanks had to use four pitchers and travel 11 heats to beat the Red Sox, 9 to 8, Pearson being returned the winner over Cascarella, who succeeded Marcum and Walberg. Joe DiMaggio, the Yanks' sensational rookie, blew himself to another homer.

Chip Boys Here For Funeral

Brothers To George, Middleweight Ex-Champ Attend Fathers' Funeral service Here

Joe, Bill, Charlie and "Eggie" Chip, brothers to George, the former middleweight champion are in New Castle the boys having been called here on account of the funeral of their father, George Chip, Sr. 66, who was laid to rest Wednesday morning.

Like their famous brother George, they have boxed, some more than the others. Joe knocked out Al McCoy after Al had taken the title from George. Previous to the title removal, Joe and Al had boxed at Brooklyn.

Joe also fought Johnny Wilson when the latter was kingpin of the middleweights, Bryan Downey, Happy Littleton and all the best in the country. He was a sparring partner to Jess Willard when Jess fought Jack Dempsey at Toledo.

Bill boxed in New Orleans and Charlie performed locally. "Eggie" milled with the late Willie Stribling when the latter was a member of the Stribling troupe of vaudeville performers. They boxed in the Coliseum in this city, some years ago.

Lewis Defeats Charley Massera

Lightheavyweight Champion Gives Pittsburgh Lad Lacing Wednesday Night

(International News Service)

PITTSBURGH, May 28.—Any doubts locally that John Henry Lewis, negro light-heavyweight champion, was not a true king of the ring were dispelled today following the champ's ten-round slaughter of Charley Massera, of Monongahela City, here last night.

Despite the fact the fight went the route, with the champ unable to put Massera away for the count, Lewis was at all times complete master of the situation. That Massera lasted was more a tribute to his courage and stamina than to his fighting ability.

Lewis, according to consensus, copped every round, hitting Massera at will with everything in the book.

The fight was a non-title affair. Lewis entered the ring at 181 pounds, Massera at 182 1-4.

HERE AND THERE IN SPORTS' LAND

Leroy Haynes spelled finis for the ring's biggest performer last night when he won from Primo Carnera in the ninth round at Brooklyn. The huge Italian was forced to give up when seized with an attack of temporary paralysis in his left leg. The commission's physician examined Primo then announced Primo was unable to continue the bout, which was listed for 10 rounds. Previously Leroy, who is a 200-pound Negro, had knocked out Carnera, who took the title from Jack Sharkey only to lose it to Maxie Baer and which now is held by James J. Braddock. Among the other scraps was one in which Lou Berg of Pittsburgh lost to Abe Simon, 250 pounder, of New York, in the third round. With the Haynes-Carnera bout out of the way and the Schmeling-Louis scrap looming for next month, local eyes will be focused on Madison Square Garden Friday night. Their interest has been drawn by the Jack Trammel - Eddie Simms 10-round bout. Trammel is the Youngstown Negro who has achieved success akin to the sensational, and Simms, a Jimmie Dunn fighter of Cleveland, is reputed to have softened Maxie Baer for Louis.

Fred Perry and H. W. Austin, England's Davis cup stars, moved into the quarter finals of the French hard court singles net championship at Paris yesterday as Andy Merlin, France, beat Heiner Henkel, German. Perry, the defending champion, beat Andrew Martin-Legeat 6-2, 6-3, 0-6, 6-3; Austin won from Paul Feret 3-6, 6-2, 7-5, 1-6, 6-2, and Merlin downed Henkel 7-5, 6-4, 1-5, 6-2, 8-6.

John Henry Lewis light heavy-weight champion of the world, demonstrated his ability in no uncertain manner last night, beating Charley Massare of Pittsburgh in 10 rounds. Massare did not win a round. Lewis fought fast, hit Massare at will but could not knock out the Pittsburgher.

Boxing and wrestling promoters in this vicinity are anxious to secure the services of Jess Willard, former champion of the world. Some have paged him for the purpose of a visit while others have opened negotiations looking forward to his role as referee.

Local group is trying to secure Centennial field for the purpose of promoting professional wrestling here. Centennial field, formerly owned by the I. A. A. is now controlled by a local bank. The field will need repairs before it can be converted into an arena for mat attractions.

The Firemen were able to bunch hits when they were needed. Thornton rapped out a double for the longest hit of the game, for one of the hits off Hill. Fabian, Jackson and Reynolds led the Colonials at bat. For the Firemen Thornton and Tommie Maher had the hits.

A. S & T P expected to play for the first time on their home ground Memorial Day, on the Rosena site. According to secretary of the league James Martin this is impossible and the Tin Platers will travel to Mahoning.

H. Marshall, center fielder for Hillsville, certainly came through with the stick against the A S & T P. He got four hits, two of which were good for two bases. Puromaki, left gardener for Bessemer poled three hits against Wampum.

Gunnett Hurls Fine Game For Tinners At Hillsville Field

Gunnett was in rare form last night as the A. S. & T. P. baseball team took a 6 to 2 victory over Hillsville in a postponed county league game at the Hillsville field. This game was originally scheduled for May 14.

Gunnett held the Hillers to six scattered hits and whiffed nine batters to face him. Stropich on the knoll for the losers was found for but seven bingles and fanned six men.

Huff, Neyman and Stropich led the hitting for the game with doubles. The Tinners bunched hits in the fifth chapter for five runs.

The revamped Nobils looked very impressive in the field with the addition of George Ponion and Bill Spencer.

The heavy hitters of the game were Rung and S. Deep for the Crotons and Colaluca and Micco for the Nobils. Harry B. Strausbaugh and Frank Isabella handled a fine game as umpires.

Light Profit Taking Turns Stock Market Lower Today

By LESLIE GOULD

NEW YORK, May 28.—Light profit-taking turned the stock market irregularly lower today.

In the steel department Youngstown Sheet lost all of its more than a point runup, while Bethlehem and U. S. Steel dipped below the previous close.

General Motors and Chrysler also sustained minus signs after ruling moderately higher most of the morning.

Aviation shares, though, continued in demand and held on to the better part of advances runnings to more than a point. Douglas, Boeing and United Aircraft were particularly buoyant.

Rails drifted irregularly lower. Utilities and amusements displayed a generally soft tone. Coppers were little changed.

U. S. Industrial Alcohol, which had sold off in the first hour on the halving of common dividends, snapped back as shorts covered.

Bonds were irregularly higher under the leadership of industrials. Grains advanced fractionally. Cotton was firm.

Dinner Meeting Is Held By Society

Interesting Program Is Carried Out By First Presbyterian Society Here

ELLWOOD CITY, May 28.—A fine dinner meeting was held by the Women's Missionary society of the First Presbyterian church Wednesday evening at which there was an excellent turnout.

Shortly after the dinner a missionary story entitled, "The Beloved Schoolmaster of Lovedale," was given by Mrs. John Brenemen. The devotional period for this occasion was in charge of Mrs. J. C. The society considered it a special privilege in giving of its means to the cause and enjoyed the proceedings during the week. Everything was done in a satisfactory way and the results were most gratifying.

A special roll call of members was included in the program. A business meeting followed this with the president, Mrs. W. H. Shields in charge. During this time Mrs. W. R. Johnston presented Mrs. Judd C. Turner a gift of appreciation of her past work as president of the society. Mrs. Turner is soon moving to Harrisburg.

The hostesses for this occasion were Mrs. George Dambach, Mrs. Moss Lauderbaugh, Mrs. J. A. Pearson, and Miss Sara McCune.

Harvard Track Star Laid Up

Pulled Tendon In Leg Of Captain Green May Keep Harvard From Winning

By BILL WEART
International News Service Sports Writer

PHILADELPHIA, May 28.—That surprises are the essence of sports was never better demonstrated than today when one tiny white fibrous tissue suddenly became the chief issue in the 16th annual I. C. 4-A championships tomorrow and Saturday at Franklin Field this city.

On the ruggedness of that tendon, a sinew in the right leg of Captain Milton Green, Harvard's great track star, depends the outcome of the entire meet.

Until Green pulled the tissue in a practice sprint on the eve of the championships, Harvard was conceded victory by a group of noted track and field experts.

Depends On Tendon

Physicians said they will not be able to tell until tonight whether the pulled tendon will affect green's running and jumping upon which depend 14 of the 38 points awarded the crimson team by the pre-meet dopesters.

Should the sinew cause Green trouble, the outcome of the entire championships will be changed; for on the basis of past performances, chiefly his victories in the heptogonal at Cambridge two weeks ago, Green was expected to win the I. C. 4-A's 110-meter high hurdles and the broad jump, and to place second in the 200-meter low hurdles.

Before Green's injury, the experts figured the results of the championships would show Harvard 38 points; Cornell 33; Dartmouth and Yale 17 each; Pennsylvania and Princeton 16 each; Manhattan 15, and Bates, Holy Cross and Michigan State 10 apiece. Other teams expected to score five or more points are Pittsburgh, Penn State, Rutgers and Rhode Island State.

Britain Must Be Responsible For Naval Move

U. S. Naval Command Would Approve British Proposal With Proviso

MAY NOT SCRAP SOME DESTROYERS

By KINGSBURY SMITH
International News Service Staff Correspondent
(Copyright, 1936, by International News Service)

WASHINGTON, May 28.—The naval high command notified the state department today it is willing to accede to the British proposal for an increase in the destroyer strength of navies providing Great Britain assumes responsibility for the increase.

The navy's report on the British proposal was being studied preparatory to the dispatch of a formal diplomatic reply to London.

The British proposal, if it goes into effect, will mean bigger navies for the principal naval powers. The naval building programs which have been underway recently are designed either for the purpose of replacements or for bringing the navies up to the full limits of existing treaties. Britain now proposes to exceed existing treaty limits in the destroyer category.

Naval building activities by Italy, Germany and France, which are not bound by the existing treaty covering destroyers, prompted the British move.

To Retain Doomed Vessels

Britain proposes to accomplish the increase in destroyer strength by keeping some of the destroyers which are due to be scrapped before the end of the year under the London naval treaty. The British admiralty has some 40,000 tons of destroyers it wants to keep. The United States has approximately 80,000 tons of destroyers due to be scrapped, but a consideable amount of this tonnage is regarded as obsolete. Nevertheless, the navy does doesire to save around 40,000 to 50,000 tons of the amount due to be scrapped.

Under the terms of the London naval treaty, any one of the contracting parties may build in excess of the limits by invoking the escalator clause. This provides that if "the requirements of the national security" of any one of the signatories are "materially affected" by new construction by a non-signatory, the signatory may make whatever increase it considers, providing it first notifies the other signatories of its intention. The others are then free to do likewise.

Britain has been reluctant to assume full responsibility for a naval increase by invoking the escalator clause alone. It is seeking to get this country and Japan to agree to do it jointly. The naval high command here is unwilling to take this step and is likely to be supported by the state department in this stand.

To join Britain in invoking the escalator clause would mark a departure from this government's position that it will not increase the strength of the American navy beyond existing treaty limits unless some other power first exceeds those limits.

Therefore, the American reply to the British proposal is likely to be that, while offering no objections, it must leave it to Britain to invoke the escalator clause.

Famous Waikiki Beach Soon To Be Lengthened

(International News Service)

HONOLULU, T. H., May 28.—Famous Waikiki Beach [illegible] brunt of travelers' jokes and exclamations of surprise because of its small size compared with other well-known ocean resorts, is going to grow up.

Thousands of tourists viewing Waikiki for the first time have expressed disappointment because the beach is so small but work is to be started this month that will make the stretch of sand three times its present length or nearly a mile from end to end.

Honolulu's efficient park board has completed the purchase of three lots which include old homes that have been landmarks since before the city and the Waikiki district became one continuous community. In front of these lots is the one piece of seawall that breaks the stretch of beach. Workmen are now removing coral from the water there and when this is finished will demolish the wall. The altered current will bring in sand and the entire stretch of waterfront along the Waikiki district will then become one continuous beach.

DONKEY SAVES ITS MASTER FROM JAIL

(International News Service)

CAIRO—The intelligence of a donkey here saved its master from prison.

Discovering that his animal had been stolen, a man here informed the police.

Later he saw his donkey staggering along the road under a heavy weight. Seizing the man leading it, he took him to the police station and related his story. There he was informed that he must prove his claim to ownership.

The peasant replied that he was willing to go to prison if the donkey was not able of its own accord to find its way back to his stable

The donkey was set free on a bridge and walked straight home.
